Coventry City Council
Minutes of the Meeting of Communities and Neighbourhoods Scrutiny Board (4)
held at 2.00 pm on Wednesday, 11 July 2018

Present:

Members: Councillor N Akhtar (Chair)
Councillor R Ali
Councillor R Bailey
Councillor Clifford (substitute for Councillor Walsh)
Councillor T Khan
Councillor K Sandhu
Councillor T Sawdon
Councillor H Sweet
Councillor R Thay

Other Members: Councillor R Lakha, Deputy Cabinet Member for City Services

Officers by Directorate:

Place: S Bennett, C Hickin, G Holmes, G Hood, A Walster

Apologies Councillors S Walsh and J Innes

Public Business

1. Declarations of Interest

There were no declarations of interest.

2. Minutes

The minutes of the meeting held on 25 April, 2018 were agreed and signed as a true record.

There were no matters arising.

3. Update on Changes to Waste Collection Services

The Scrutiny Board considered a presentation of the Deputy Chief Executive, Place, which provided performance data following the introduction of an alternate weekly collection for waste in the City that was introduced in September, 2017.

The presentation covered:-

- The alternate weekly collections:-

Week 1

- Fortnightly residual waste collections – Reduction from 17 to 12 collections rounds

Week 2

- Fortnightly comingled recycling – Increase from 9 to 10 collection rounds
- Fortnightly food and garden waste across the year.
- Performance data for:-
 - Residual Waste (which had seen a 17% reduction in tonnage collected over the 9 months)
 - Recycling (which had seen a 14% increase in tonnage collected over the 9 months)
 - Food and garden waste (which had seen a 28% increase in tonnage collected over the 9 months)
- Complaints profile during the service changes (which were currently lower than before the introduction of the new service)

The Scrutiny Board were informed of investigations currently taking place to improve the service with the increased use of ICT which would enable live information to be provided in relation to missed bin collections etc.

The Scrutiny Board questioned officers on aspects of the new service including:-

- Action taken in relation to inconsiderate parking which prevents refuse vehicles from accessing properties
- Weight restriction on refuse vehicles
- How missed collections are logged and rescheduled
- The current technology being used in refuse vehicles and steps being taken to improve it's use
- Impact on the service of an ageing population

RESOLVED that the Scrutiny Board note the update on changes to the waste collection service following the introduction of alternate weekly collections and request that a further update be provided in 9-12 months time.

4. Unauthorised Encampments

The Scrutiny Board considered a Briefing Note of the Deputy Chief Executive, Place, which provided an overview of unauthorised encampments in the City. In recent years, various areas of the City have experienced regular unauthorised encampments, some of which have caused concern, uncertainty, disruption and, on occasions, conflict locally.

Unauthorised encampments tend to be seasonal in nature and occur between the months of April – September. Peak periods tend to occur locally around the Kenilworth Horse Fair which is held in April and September. Where possible, the Council seeks to protect its land with fortifications, which is a major undertaking, given the variety and number of parcels of land owned by the City Council. An Appendix to the Briefing Note contained details of the number of unauthorised encampments and a further Appendix detailed money invested in site protection, clean-up costs and eviction costs.

Addressing the issues arising from such encampments often requires significant resources from the Police and Local Authority. These agencies seek to ensure a positive, coordinated and informed approach to all aspects of management of unauthorised encampments, whether that relates to initial identification of such encampments, making assessments of the needs of persons on site (which is a legal requirement for public bodies), assessing and deciding upon the correct and proportionate course of action and, where necessary, taking enforcement action.

The Briefing Note detailed the 3 following possible courses of action in relation to unauthorised encampments on highways, council owned land or common land:-

- Decision not to evict immediately
- Decision to Evict (Local Authority Powers)
- Decision to Evict (Police Powers)

In determining the course of action, a balancing exercise is undertaken between the rights of those encamped, the rights of the landowner, the rights of those lawfully entitled to use the land and the rights of the local community.

In relation to practice elsewhere in the region, in 2017, Sandwell MBC created a purpose built transit site for the travelling community. This action was accompanied by court injunctions prohibiting unauthorised encampments at 17 specific sites in their borough, which has been subsequently increased to a whole borough court injunction. In the event of an unauthorised encampment, the Police have agreed to use their powers under s.62 of the Criminal Justice and Public Order Act 1994, to immediately evict the unauthorised campers and direct them to the transit site. To date, it has not been necessary for the Police to use these powers in Sandwell.

This had had an impact on neighbouring local authorities. Wolverhampton MBC has seen a 24% increase in unauthorised encampments in their area. Wolverhampton have subsequently identified an area for their own transit site and are proceeding with this course of action. It is likely that other local authorities in this area will follow suit.

The Scrutiny Board questioned officers on aspects of the Briefing Note including:-

- Issues relating to the Travellers site at Siskin Drive
- Defences used at different sites in the City and their effectiveness
- Action taken once an encampment takes place and information

- provided to Ward Councillors in relation to this
- Clean up operations, particularly in relation to children's play areas
 - The possibility of a transit site in Coventry

RESOLVED that the Communities and Neighbourhoods Scrutiny Board (4) notes the contents of the Briefing Note and:-

- 1) Endorses the actions taken by officers to protect land owned by the City Council and deal with unauthorised encampments**
- 2) Requests that the Cabinet Member for Policing and Equalities be informed of the Scrutiny Board's support for exploring the possibility of establishing a transit site in Coventry and that any proposals relating to this be considered by Scrutiny.**

5. Work Programme and Outstanding Issues 2018/19

The Scrutiny Board considered their Work Programme for 2018/19 and identified the following items for future consideration:-

Parking enforcement, speed cameras and city centre parking- October meeting

Public toilets – December meeting

Review of residents parking scheme – future meeting

RESOLVED that the Scrutiny Board's Work Programme be updated to incorporate the issues identified above.

6. Any other items of Urgent Public Business

There were no other items of urgent public business.

(Meeting closed at 3.30 pm)

Coventry City Council

Briefing note

To: Communities and Neighbourhoods Scrutiny Board (4)

Date: 19th September 2018

Subject: European City of Sport 2019

1 Purpose of the Note

- 1.1 To inform the Communities and Neighbourhoods Scrutiny Board of current activity in relation to the development of Coventry's year as European City of Sport 2019.
- 1.2 To seek the support and guidance of the Communities and Neighbourhoods Scrutiny Board in facilitating the successful delivery of European City of Sport 2019.

2 Recommendations

- 2.1 The Communities and Neighbourhoods Scrutiny Board is recommended:
 - 1) To consider the content of the presentation for European City of Sport 2019
 - 2) To support the Cabinet Member in the delivery of a successful title year for Coventry
 - 3) To make recommendations to the Cabinet Member for Public Health and Sport in order to support and secure delivery of a successful title year for Coventry.

3 Background

- 3.1 In 2017, the Chair of the Coventry Sport Network – David Moorcroft OBE – was approached by a UK delegate of ACES Europe inviting Coventry to bid for the European City of Sport title. ACES Europe had, for the first time ever, nominated and invited Coventry to bid for the title due to the levels of investment and impact that sport and physical activity were having within the city due to the 10-year partnership Sports Strategy.
- 3.2 ACES Europe is a non-profit association based in Brussels which, since 2001, assigns every year the recognitions of European Capital, City, Community and Town of Sport.
- 3.3 Cities are invited to bid for the awards after being recommended by existing ACES Europe members/previous award winners. These recommendations are focused on cities that are recognised as placing sport and physical activity in high importance to local society.
- 3.4 In September 2017, following the approach from ACES Europe, the Chair of the Coventry Sport Network approached the Cabinet Member for Public Health and Sport and the Lord Mayor of Coventry to seek approval for Coventry to express an interest to be considered as a European City of Sport in 2019.
- 3.5 The Expression of Interest was agreed and a letter was drafted by Council officers to highlight some of the key achievements attained as part of delivering the Coventry Sports Strategy 2014 – 2024. This was then sent to ACES Europe for consideration.

- 3.6 In January 2018, ACES Europe contacted the Council to request that Coventry submit a Bid File and host a delegation visit from ACES Europe to allow them to assess the city against the criteria to become a European City of Sport for 2019.
- 3.7 In April 2018, Coventry hosted a visit of ACES Europe delegates.
- 3.8 In May 2018 Coventry was awarded the title of European City of Sport 2019. The Leader of the Council announced Coventry had been awarded the title at the Council's Annual General Meeting (AGM). The judges noted that the Coventry's bid and host visit was one of the best that they had been involved in.

4 Information and Update

- 4.1 The European City of Sport 2019 bid was a partnership bid that was supported by the Coventry Sport Network and officers across the Council. The bid was also endorsed by the Coventry City of Culture Trust and West Midlands Combined Authority (WMCA), and was formally supported as part of the build up to the Commonwealth Games 2022 in which Coventry will be a host for Netball.
- 4.2 The Coventry Sport Network is a group of strategic stakeholders that supports the delivery of the 10 year Coventry Sports Strategy, working collaboratively to deliver against its aims and strategic objectives. The bid file completed was a collaboration of all partners in the city to highlight the achievements of the city and to indicate the approach to the delivery of 2019.
- 4.3 European City of Sport 2019 in Coventry is based upon three key themes that will ensure that the objective to deliver a successful year is achieved. The three themes are 'Culture and Sport', 'Year of Wellbeing' and Celebrate.

5 Culture and Sport

- 5.1 Coventry has been selected as UK City of Culture 2021. Coventry partners are working to break down divisions between sport, movement, physical activity and culture – not least because the likes of dance, movement, performing arts and sports such as synchronised swimming and gymnastics can be considered to cross such formal boundaries.
- 5.2 The aim during 2019 is to further align sport and physical activity to culture and embed the opportunities for bringing communities together in advance of 2021. This supports both the Coventry Sport Strategy and Coventry Cultural Strategy, as both have key aims to get people who live and work in the city 'moving more' within more active lifestyles.
- 5.3 Partners across the city have already used cultural collaborations in their sporting programmes. For example, as part of GoSWIM in 2017, leisure partners worked with cultural organisations to install a giant moon above the 50 metre pool and commissioned cultural performances and a range of events in Coventry Sports and Leisure Centre to coincide with this.
- 5.4 Through European City of Sport 2019, it is planned to give community organisations the opportunity to pilot and test new ideas that link sport and culture across the year, so that in 2021 we can produce established and innovative events, which in particular look at how sport can be a route into culture, and vice versa – particularly in communities where levels of participation are at their lowest.

6 Year of Wellbeing

- 6.1 2019 will be the Year of Wellbeing for Coventry, with partners supporting the city's Sustainability and Transformation Plan and acting as a forerunner to the City of Culture year in 2021. This will be a year of activities built upon engaging with, and across communities, to focus and 'step up' efforts in preventing both physical and mental illness by focusing on healthy lifestyles. Promotion of physical activity will be a key theme as a vehicle for improving physical and mental health and reducing social isolation and loneliness.

6.2 Since the award, Coventry has been working closely with Sport England, with a specific focus around tackling inequalities in participation. Utilising local and national knowledge, partner organisations in Coventry will work with Sport England to maximise the opportunities presented by the European City of Sport 2019 title and the aligned Year of Wellbeing.

7 Celebrate

7.1 Coventry was nominated to apply to become a European City of Sport due to the commitment the city has shown through investing in sport, leisure and physical activity facilities and activities.

7.2 Over the course of 2019, Coventry is planning to open a number of state-of-the-art sports and leisure facilities within the city that will transform sporting and physical activity opportunities for the city's residents

7.3 With over £100 million of sports and physical activity facility investment planned within Coventry or underway, the European City of Sport 2019 marks a landmark year to remember for sport, physical activity and leisure in the city.

7.4 The Council and wider partners plan to use the European City of Sport 2019 status to celebrate sport and activity in the city, and in particular to highlight a number of new and planned facilities below:

- The opening of the new city centre waterpark
- The completion of the University of Warwick Sport and Wellness Hub
- The opening of a new 50m swimming pool at the Alan Higgs Centre
- A programme in 44 parks and open spaces to celebrate the new walking and running routes / development of Stage 2 of Coventry on the Move in Parks
- The impact of the Health and Life Science building at Coventry University
- The development of a new indoor bowls centre
- The opening of seven artificial cricket wickets and outdoor nets in local community facilities

7.5 The city also plans to enhance its annual events programme, creating European City of Sport themed events at: professional sports games in Coventry; Coventry Sports Week; Coventry Half Marathon etc. but in addition, ensuring sport and movement are central to a range of cultural events.

7.6 Coventry Sport Network and a number of stakeholders within the city are working collectively to establish a programme of events, programmes and initiatives as part of the year that will be launched in 2018. Capital facility projects that are in due to open in 2019 will also be aligned to promotional campaigns that will go hand in hand with the European City of Sport year in order to encourage more people into more active lifestyles.

7.7 Planning for and across European City of Sport will be linked to readiness structures for UK City of Culture. The Cabinet Member for Public Health and Sport is guiding the development of the plans for 2019, with regular planning meetings and updates from Council officers.

7.8 The presentation to the Communities and Neighbourhoods Scrutiny Board will outline the themes of the bid and highlight some of the projects that will be central to the delivery of a successful European City of Sport 2019.

Coventry City Council

Briefing note

To: Communities and Neighbourhoods Scrutiny Board 4 Date: 19th September 2017

Subject: Fly tipping in Coventry

1 Purpose of the Note

1.1 Members requested details of the progress that is being made to tackle fly-tipping in the city.

2 Recommendations

2.1 Members of the Communities and Neighbourhoods Scrutiny Board (4)

- 1) Note the actions and programmes in place to tackle fly tipping.
- 2) Make recommendations as appropriate to the Cabinet Member (Policing and Equalities).

3 Information/Background

3.1 Fly tipping in Coventry has increased in the last 12 months; Appendix 1 compares the number of fly tipping episodes in the years 2016/17 and 2017/18. This needs to be set against a rising trend nationally and locally; Appendix 2 compares Coventry's total fly tipping episodes with those of our near neighbours and as a factor of population size.

3.2 The increase in fly tipping and our response was exacerbated by a number of factors:

3.2.1 **Change in legislation and the cost of waste disposal.** The cost of waste disposal has risen in recent years and there is a temptation to avoid paying for correct disposal. In particular, the legislation around the disposal of refrigerators was 'tightened' and made more onerous and as a result scrap metal collectors are reluctant to take this type of waste and will want payment. This one factor resulted in an additional 'white goods' being fly tipped; this represents 12% of the total.

3.2.2 **Savings made on waste collection, street cleansing and enforcement.** In the past few years savings of £2.5 M were made on waste collections, street cleansing and enforcement, the effects of these savings are still being absorbed by the relevant services. It is a well-known fact that cluttered streets increase the likelihood of fly tipping. The degree to which the saving programmes have increased fly tipping in the city is difficult to quantify against a back drop of increased fly tipping nationally. Although austerity programmes to save money here and elsewhere in the country will almost certainly have had an effect.

3.2.3 In February 2016 the service which previously covered environmental crime, was amalgamated with other services that enforced noise nuisance and anti-social behaviour; the total number of officers working in these combined areas was reduced by 10. Furthermore, the service now operates 7 days per week from 9am to 3am the following day; whilst this gives greater flexibility, resilience and is easier for residents to report issues to, it does mean that remaining resources are spread more thinly. A further smaller restructure was made in February 2018 to better align the service to tackle fly tipping.

3.2.4 It should also be recognised the Street Enforcement Team is a multi-disciplinary service which responds to a wide variety of issues and not just fly tipping. Appendix 3 details the

issues managed by this team and Appendix 4 gives an indication of the total work that falls to this team and increases to the individual officer's case load. In the year to date the total amount of work completed by the team, compared to previous 12 months increased from 12,706 cases to 13,785, an 8.5% increase.

4 Measures to address the increase in fly tipping

4.1 It was mentioned in 3.2.3 that a further smaller restructure of the Street Enforcement Team was made in February 2018 to better align the service to tackle fly tipping. The restructure was designed to create elements of the service that could a) respond rapidly to collect evidence and catalogue fly tipping incidents, and b) allow other elements of the service to more effectively case manage incidents. Already the changes are paying dividends and the amount of enforcement actions have increased. The table below shows the increase in enforcement actions:

	18.08.16 – 17.08.17	18.08.17 – 17.08.18
Notices served for waste offences	244	368
Prosecutions for waste offences	20	32

- 4.2 The Street Enforcement Team along with colleagues in Street Pride and Waste Services will continue to map all instances of fly tipping to better determine where the problem is occurring and attempt to understand why this may be the case. In 2018 the Clean Streets Programme was introduced by the Cabinet Member for City Services. This programme is designed to deal with parts of the city where there is poor compliance with the Council's waste collection rules; the programme is designed to educate local residents, but enforcement is used where poor compliance continues.
- 4.3 Over half of the City's fly tipping occurs in three wards. The Street Enforcement Team together with the Neighbourhood Enforcement Team will continue to work on projects such as 'hot streets'. We have successfully used this early intervention and education initiative with residents in these specific areas. Again the recent restructure will facilitate better management of the hot streets programme.
- 4.4 We have continued the programme of introducing new surveillance equipment which, will be deployed at areas that we know are frequently fly tipped on. Such deployment often leads to a reduction in tipping but also it is hoped that the repeat offenders will be identified and ultimately formal action would be taken.
- 4.5 We have started to engage residents who routinely report issues with the aim of recruiting them as Street Champions. This will assist the Council with the reporting of incidents, using social media and promoting good practice. This programme started in June

Appendix One: The number of incidents of fly-tipping

2016 – 2017	totals
Number of fly tipping incidents	3342
2017- 2018	totals
Number of fly tipping incidents	4704
2018 – 2019 (to date – quarter 1))	totals
Number of fly tipping incidents	1669

Appendix Two: Fly tipping in the sub-region

Total number of incidents this period by authority			
Authority	2017/18	Population 2011 census	Fly tipping per head of population
Leicester City Council	8512	329,839	0.026
Tamworth Borough Council	1379	76,813	0.018
Walsall MBC	4367	269,323	0.016
North Warwickshire Borough Council	972	62,014	0.016
Birmingham City Council	15993	1,074,300	0.015
Coventry City Council	4704	316,960*	0.015
Sandwell MBC	4695	308,063	0.015
Rugby Borough Council	1068	100,075	0.011
Wolverhampton MBC	2362	249,470	0.009
Warwick District Council	1014	137,648	0.007
Nuneaton and Bedworth Borough Council	714	125,252	0.006
Solihull MBC	858	206,700	0.004
Stratford-on-Avon District Council	328	120,500	0.003

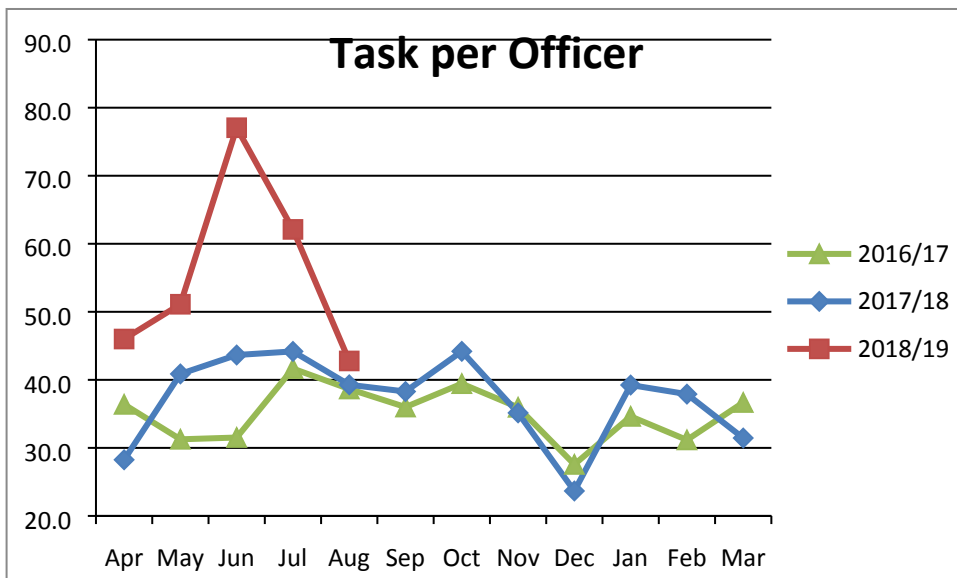

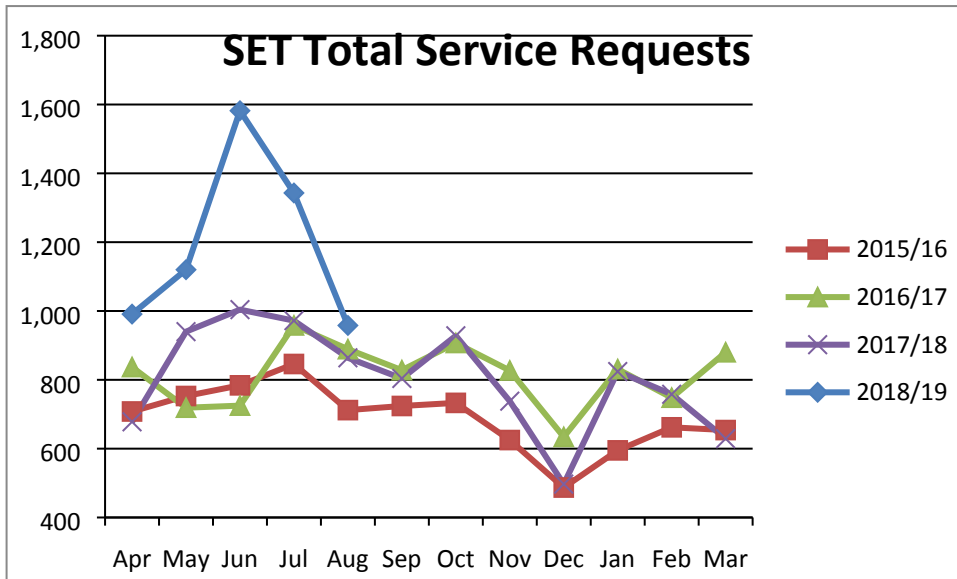

*Coventry's population is currently estimated as 362,000

Appendix Three: Full suite of services managed by the Street Enforcement Team

- **Public Space Protection Orders**
 - Dog Control: Dog fouling, dogs on leads, dogs on lead by direction, dogs prohibited and maximum dogs permitted.
 - City Centre: Busking, begging, charity subscription collections (Chuggers), unauthorised collections, unauthorised street trading, skateboarding and cycling.
- **Environmental Crime:**
 - Littering
 - Fly posting on buildings and street furniture,
 - Fly tipping on public and private land,
 - Refuse and rubbish accumulations in gardens and private land,
 - Waste carriers. Ensuring their legitimacy i.e. scrap men and 'tatters',
 - Waste duty of care (businesses). All businesses are required to have contracts to deal with their waste
 - Empty homes and the resultant problems
- **General nuisance and public health issues:**
 - Noise nuisance
 - Anti-social behaviour
 - Nuisance feeding of birds
 - Drainage complaints (businesses only)

- Abandoned vehicles
- Nuisance Car Sales on the highway,
- Vehicle repairs on the highway
- Obstructions on pavements
- Odour nuisances from domestic properties
- Bonfires
- Light nuisance from domestic premises
- Illegal Traveller and Gypsy illegal encampments,
- Invasive plants
