

4 January 2011

Name of Cabinet Member:
Cabinet Member Corporate & Neighbourhood Services – Councillor Townshend

Director Approving Submission of the report:
Director of Customer & Workforce Services

Ward(s) affected:
All

Title:
Statutory review of polling districts and polling places

Is this a key decision?

No. It is a legislative requirement that the full council approve the polling arrangements scheme in its entirety.

Executive Summary:

The Cabinet Member Corporate and Neighbourhood Services instructed the Electoral Arrangements Advisory Panel to undertake this review and report back to Cabinet and Council any proposed changes to the current polling arrangements scheme. This report sets out a summary of how the review was conducted and the proposed changes as a result of this

Recommendations:

Cabinet is asked to recommend that Council:

- 1.1 Consider the comments received during the consultation process as set out in **Appendix A**.
- 1.2 Approve the revised polling arrangements scheme in its entirety, as set out in **Appendix B**.

Cabinet is also asked to:

- 1.3 Approve officers continuing discussions for the five premises which need to be finalised; these are specified in **Appendix B** as 'possible change of polling place'.
- 1.4 Agree the polling districts and polling places set out in **Appendix C** to be reviewed during 2011, and proposed changes resulting from this brought back to Cabinet prior to the Register of Electors being published on 1 December 2011.

Council is asked to:

- 1.5 Consider the comments received during the consultation process as set out in **Appendix A**.
- 1.6 Consider any comments arising from Cabinet meeting of 4 January 2011.
- 1.7 Approve the revised polling arrangements scheme in its entirety, as set out in **Appendix B**.

List of Appendices included:

Appendix A – Comments received during the consultation process

Appendix B – Revised polling arrangements scheme for approval and implementation on 1 February 2011

Appendix C – List of polling districts and polling places to be reviewed after the election in May 2011.

Other useful background papers:

Description of paper: -

Electoral Commission Circular EC19/2010

Location

Electoral Services

Has it or will it be considered by Scrutiny?

No

Has it, or will it be considered by any other Council Committee, Advisory Panel or other body?

Electoral Arrangements Advisory Panel 21 December 2010:

Will this report go to Council?

Yes

11 January 2011

**Report title:
Statutory review of polling districts and polling places**

1. Context or background

- 1.1 Section 18C (1) of the Representation of the People Act 1983 (the Act) places a duty on all UK local authorities to review their parliamentary polling districts and polling places every four years. The previous review was completed in December 2007.
- 1.2 The following definitions were used within the review:
- Polling District – a geographical sub-division of an electoral area e.g. ward
 - Polling Place – a geographical area in which a polling station is located. There is no legal definition of what a polling place is, it can be as tightly defined as a building, a street or as wide as the whole district.
 - Polling Station – the actual room where the process of voting takes place. It must be located within the polling place that the authority has designated for the polling district. The location of the room within the polling place is the responsibility of the (Acting) Returning Officer.
- 1.3 Advice from the Electoral Commission was received in August 2010 that the review should be completed in time for changes to be implemented by May 2011 local elections. On 6 September 2010, the Electoral Arrangements Advisory Panel (EAAP or 'the Panel') agreed that the review should be carried out in this timeframe, as set out in Table 1.

Table 1: Timetable for the review

Action	Timing
Advisory Panel agree timing and criteria for the review	6 September 2010
Publish Notice of holding Review	By Friday 10 September 2010
Any proposed changes agreed by Electoral Arrangements Advisory Panel	By end of October 2010
Acting Returning Officer (ARO) to make representation to the authority on the scheme	By end of October 2010
ARO's representations published	Monday 1 November 2010
Public Consultation (including stakeholders and interest groups)	Friday 5 November to Friday 26 November 2010
Consultation responses considered, final polling arrangements scheme agreed by Electoral Arrangements Advisory Panel (EAAP)	21 December 2010
Final polling arrangements scheme approved by Cabinet	4 January 2011
Final polling arrangements scheme approved by full Council	11 January 2011
Final polling arrangements scheme made publicly available	17 January 2011
Notice of alteration or revised register published (if required)	1 February 2011

- 1.4 In conducting the review, the Act requires local authorities to:
- seek to ensure that all electors in the constituency have such reasonable facilities for voting as are practicable in the circumstances
 - seek to ensure that, so far is reasonable and practicable, the polling places are accessible to those who are disabled

- have regard to the accessibility to disabled persons of potential polling stations in any place which it is considering designating as a polling place or the designation of which as a polling place it is reviewing.

1.5 The statutory requirements that have to be followed in conducting the review include publishing a notice of the review, consulting with groups representing disabled people, considering the Acting Returning Officer's representations, and considering representations received from electors. These were incorporated into the timetable.

2 Options considered and recommended proposal

2.1 The first stage was to identify a list of polling places where there were known problems. Information was brought together from previous elections from the reports of polling station staff and inspectors, together with details of complaints received from electors. The Panel agreed the criteria for the review on 6 September 2010:

- each ward should have between six and ten polling districts
- each polling district should contain between 1,000 & 2,000 electors
- there should be a designated polling place for each polling district wherever possible
- all Portacabin locations to be reviewed for more suitable alternative arrangements
- all buildings with known access problems be reviewed together with any buildings where problems were highlighted during the 2010 elections, especially those relating to access.

2.2 An initial consultation was carried out in September 2010. Councillors, MPs, MEPs, groups representing disabled persons and members of the public were invited to make representations on the existing scheme of polling districts and polling places. At the same time, as required by the Act, the Acting Returning Officer (ARO) was invited to make representations. There were 14 responses to this stage of consultation including 8 specific comments from the survey conducted during local democracy week.

2.3 The Panel met on 2 November 2010 to consider all representations received as part of this initial consultation including the representation of the Acting Returning Officer. The panel agreed a number of proposals for alternative venues to be used as polling places, together with several proposals to amend existing polling districts.

2.4 Questionnaires containing a section on current electoral arrangements were handed to members of the public during Local Democracy Week. Of the questionnaires returned there were 46 questionnaires where the section on electoral arrangements had been completed. Analysis showed that 38 electors were satisfied with the current arrangements and a further 8 made specific comments. These comments have been included in appendix A and considered by the EAAP in drafting their proposals for change.

2.5 The proposals for change were published for a further period of consultation between 5 and 26 November 2010. These proposals were circulated to councillors, MPs, MEPs, and groups representing disabled persons, as well as being published on the council's website.

Consideration of findings of the review

2.6 The Panel met on 21 December 2010 to consider the two responses to the second consultation, and to agree a final polling arrangements scheme for submission to Cabinet and Council.

2.7 **Consultation responses:** Responses were received which included comments relating to both proposed changes to polling places planned in time for the elections in May 2011 and to polling places which had been planned to be investigated during 2011, to finish by 1

December 2011. All consultation responses were presented to the Panel for consideration as to whether these should be implemented.

2.8 The consultation responses were received relating to:

- Coventry NE, Longford Ward, Hg - Samuel Hayward Day Centre, Riley Square (ref no 24) – Objection to the proposal to delete this polling place and amalgamate the polling district Hg with Hi. Considered by Panel and agreed to retain polling place.
- Coventry South, St Michael's Ward, Lf – St. Mary and St. Benedict's RC Primary School, Leigh Street polling place (Ref no. 141). Comment: provide an additional portacabin in the car park in Keppel Street as portacabins used elsewhere in City and to be implemented for the 2011 elections. A further request had been received to investigate the use of the Mosque in Cambridge Street as an alternative polling place in Lf. In the proposals sent out for consultation on 5 November 2010, this polling district was identified as requiring further investigation later in 2011. This was considered by the Panel and it was agreed to update Cabinet on findings from investigations. Since the Panel meeting, the Mosque have confirmed the building would not be available until 2012 due to building works, so this option has been removed from Appendix B.

2.9 Following consideration of these representations and other work undertaken by Officers, the Panel agreed a final scheme for submission to the Council for approval. The polling arrangements scheme presented in Appendix B is arranged by constituency and within each by the wards contained in that constituency. This is because this is a statutory review of parliamentary polling districts and polling places.

2.10 The polling arrangements scheme in Appendix B includes all 155 polling districts and their relevant polling places. Of the 150 polling places, 123 show no change to current arrangements, 5 show a definite change and 4 show a possible change. In addition there are 18 where the action is classified as 'designate'. For these 18 polling places, a specific reference to a portacabin has been deleted. This will facilitate the proposal made by the Panel (in para 2.13) to use vacant shops instead of portacabins wherever possible.

2.11 There were a number of polling districts where the specific premises involved required further investigation in order to agree a change of polling place. These were:

- **Binley & Willenhall (Bh)** Investigating use of John White Community Centre, Grange Avenue (replacement for Binley Private Members Club, Grange Avenue).
Status: Still awaiting response.
- **Cheylesmore (Dg)** Investigating use of the Trevor Webb Sixth Form Centre (part of King Henry VIII School) (replacement for the Hylands Hotel, Warwick Road).
Conclusion: Use of this building was initially refused but further discussions are now being undertaken. If the Sixth Form Centre is not available the contingency will be to revert to possible use of 165 Warwick Road where agreement in principle has been given but building requires site visit.
- **Holbrook (Gd)** Investigating use of Hen Lane Working Men's Club, Beacon Road as replacement for portacabin, Compton Road.
Conclusion: agreement in principle – requires site visit.
- **St Michael's (Lf)** Investigating use of Mosque, Cambridge Street (additional polling station in polling district).
Conclusion: The building is undergoing building work and is not available until 2012.

- **Upper Stoke (Ng)** Army Cadet Building, Wyken Grange Road (replacement for No 8 Squadron ATC Headquarters, Wyken Grange Road).
Conclusion: agreement in principle – requires site visit.

2.12 Where there is a possible change of polling place (such as some of the premises listed in Para 2.10), it is recommended that the whole of the polling district is approved as the polling place, in order that the change can be effected for the elections in May 2011. This enables a change to be made to the specific premises used without further referral to Council as they will sit in the designated polling place i.e. the polling district. The designation of the whole of the polling district is required because two polling places cannot be designated for one polling district. If the premises are not available, the status quo will be maintained. In Appendix B these appear as a 'possible change of polling place' with a recommendation to designate the whole of the polling district as the polling place.

2.13 At the Panel meeting of 21 December, officers were asked to investigate the following and report back to the Panel:

- Exploring the use of vacant shops in the close vicinity of current sites currently used for portacabins. It was accepted that this could only be on an ad hoc basis with short term leases in the three months prior to the election. To be used where possible in 2011 elections.
- Exploring alternative accommodation to minimise use of primary schools – completed and reported to the Panel by end of June 2010.
- Further investigations required as part of this polling district review (Appendix C) - to be completed and reported to the Panel by end September 2010.

2.14 Any changes to the polling arrangements scheme arising later in 2011 will be reported back to Cabinet and Council for approval by December 2011.

3 Results of consultation undertaken

3.1 Relevant stakeholders were consulted throughout the process including councillors, MPs, MEPs and groups representing disabled persons. Comments received during the consultation are shown in **Appendix A**.

4 Timetable

4.1 The timetable for implementation is listed below

Final polling arrangements scheme made publicly available	17 January 2011
Notice of alteration or revised register published (if required)	1 February 2011
Further changes to polling places implemented	By 1 Dec 2011

4.2 No Notice of alteration will be published as no changes to the register are required for any of the proposed changes. All changes agreed by Council will take effect from 1 February and any new polling places will be used in the May 2011 elections.

5 Comments from Director of Finance and Legal Services

5.1 Financial Implications

Any increase or reduction in venue costs will be reflected in any claim made to the relevant Government Department.

5.2 Legal Implications

Section 18C (1) of the Representation of the People Act 1983 (the Act) places a duty on all UK local authorities to review their parliamentary polling districts and polling places every four years. The next review is required to be completed prior to the publication of the next register on 1 December 2011. Section 18B of the Act refers to the considerations needed when selecting/reviewing polling places.

6. Other implications

6.1 How will this contribute to achievement of the Council's key objectives / corporate priorities (corporate plan/scorecard) / organisational blueprint / LAA (or Coventry SCS)?

The council will have completed one of its statutory requirements.

6.2 How is risk being managed?

6.2.1 The Council needs to review its polling arrangements to ensure they are accessible to all voters. If premises for polling places are chosen which are not convenient in terms of location, or do not have adequate disabled access, or are otherwise not suitable to house a polling station, this could lead to reduced turnout and dissatisfied voters.

6.2.2 By carrying out this review promptly and thoroughly, the Council is seeking to maintain and improve the standard and location of polling station facilities, which should assist people wanting to vote, and hence help improve turnout. Within the review, there has been provision made for contingency arrangements and flexibility in the few areas where the specific premises need to be finalised, in order to ensure we do secure the best possible location for the next local elections in May 2011.

6.3 What is the impact on the organisation?

None

6.4 Equalities / EIA

6.4.1 If premises for polling places are chosen which do not have adequate disabled access this could lead to reduced turnout and dissatisfied voters. Access to polling stations for electors with reduced mobility has been considered as part of this review, and consultation has been carried out with disabled groups.

6.5 Implications for (or impact on) the environment

None

6.6 Implications for partner organisations?

None

Comments raised in Public Survey during Local Democracy Week (October 2010)

Constituency	Name	Ward	Polling District	Polling station	Comment	Response
Cov NE	Adrian Dunn	Foleshill	Eg	(7) Eagle Street Play Centre	Prefer pubs as polling stations	We would have to secure sole use of rooms available with disabled access. If these were function rooms and not located on the ground floor then a lift would need to be available. Polling hours do not always fit in with the availability of rooms on these premises. The sale of alcohol in the vicinity of a polling station also has issues that would need to be addressed. Recommend no further action
	Anonymous	Lower Stoke	JH	(37 & 38) Macdonald Road Methodist Road	Prefer empty shop	This does not provide a permanent solution and would need to be addressed at each election. Recommend no further action
Cov NW	Anonymous	Holbrook	Gd	(71) Portacabin, Compton Road	Needs wider entrance for disabled people – would prefer Hen Lane WMC	Agreement in principle has been given to the use of Hen Lane WMC as alternative venue. Site visit required to determine suitability of premises Action Use Hen Lane WMC if suitable for purpose
	Rita Sutton	Radford	Kb	(79) Hill farm primary School, Foster Road	Prefer Scout Hut on Beake Ave	The scout hut lies to the south of the polling district. The school is more centrally located. Recommend no further action
Cov South	Anthony Murphy	St Michael's	Lc	(138) St Anne & All Saints Community Hall, Acacia Ave	Prefer local School	The school is on an adjacent site to the Community Hall Recommend no further action
	Samir Solomon	St Michael's	Lf	(141) St Mary & St Benedict's RC Primary School, Leigh Street (stated Southfields School on Survey)	Prefer portacabin/building specifically for polling	Permanent buildings are always considered preferable to temporary polling stations e.g. portacabins. It would be difficult to only use buildings that were solely dedicated for polling purposes. Recommend no further action
	Arthur Watkins	St Michael's	Lf	(141) St Mary & St Benedict's RC Primary School, Leigh Street	Don't like this one as it is down a steep hill	This is clearly an issue for electors with mobility problems. However, there is no current suitable alternative. May be possible to resolve in association with response to comments from MP and councillors below. Action Investigate alternative arrangements if suitable.
	Annaliese Knell	Westwood	Qa	(152) Room attached to Our Lady of the Assumption Church, Tile Hill Lane	Prefer to have the polling station at the school where your children go to	This option would not necessarily address the issues for all of the electors in a polling district. It would be difficult to establish and maintain. In this particular polling district there are 3 primary schools in the area that a child could attend. Recommend no further action

Responses from Stakeholders during initial consultation commencing 13 September 2010

Constituency	Ward	Respondee	Polling Station	Comment	Response
Cov NE	Henley	Cllr Ed Ruane	(16 – Fh) Portacabin near White Horse Public House, Broad Park Road	The Pub has been demolished – move nearer to shops on Broad Park Road	Action Investigate a suitable site for the location of the portacabin nearer to the shops on Broad Park Road
Cov NW	Sherbourne	Geoffrey Robinson MP	(87 & 88 – Ma) Holyhead Road UR Church	Transfer one of the stations to either the Holyhead Public House opposite or further along Road to either Moseley Avenue Primary School or the adjacent Council Offices.	No suitable accommodation at the premises specified at present Instruction to avoid use of schools if other permanent buildings exist in the vicinity. Recommend no further action
	Whoberley	Geoffrey Robinson MP	(101 – Rf) St Christopher Primary School, Allesley Old Road	Transfer the polling place to the Maudsley Pub which is a more central location within the polling district.	No suitable accommodation available Recommend no further action
	Whoberley	Cllr Bally Singh		Move the polling station for Rf to a more central location e.g. Flutterbies Sure Start centre in Oldfield Road – may not have enough room in building, will consider a portable station on their grounds. Polling station at St Christopher's School is on western edge of Rf.	Flutterbies Sure Start Centre is a converted House and has no suitable accommodation available. Policy to only use portacabins where no other suitable arrangements exist. Recommend no further action
	Woodlands	Cllr Mrs Heather Johnson	(106 – Se) The Woodlands School, Broad Lane	Concerns with development on AGCO site in Banner Lane. As estate grows will numbers of voters be too large for this venue.	Action Monitor elector numbers as housing is occupied. Possible creation of another polling station at school or identify any other available permanent building nearer to new estate.
Cov South	St Michael's	Jim Cunningham MP	(141 - Lf) St Mary & St Benedict's RC Primary School, Leigh Street	Provide an additional polling station in Keppel Street (where there had been one in the past)	Background: The previous polling place in Keppel Street was a car park where a portacabin was used. This was withdrawn in 2004 on the advice of the Health & Safety Section following an accident. No permanent building could be identified as an alternative venue at the time Cambridge Street Mosque is undergoing building work and will not be available until at least 2012 Recommend no further action
		Cllrs Jim O'Boyle & David Welsh		Reintroduce the Keppel Street polling station in polling district Lf. The only other acceptable arrangement would be a polling station within the confines of the Cambridge Street Mosque	

Responses from stakeholders to further consultation after publication of revised polling scheme on 5 November 2010

Cov NE	Longford	Cllr George Duggins on behalf of Longford ward councillors	(24 - Hg) Samuel Hayward day Centre, Riley Square	Object to the loss of this polling station and the amalgamation of polling districts Hg & Hi	Action Delete from proposals
Cov South	St Michael's	Jim Cunningham Cllrs Jim O'Boyle & David Welsh	(141 – Lf) St Mary & St Benedict's RC Primary School, Leigh Street	Provide an additional polling station in the car park in Keppel Street Implement change for the 2011 election.	Background: The previous polling place in Keppel Street was a car park where a portacabin was used. This was withdrawn in 2004 on the advice of the Health & Safety Section following an accident. No permanent building could be identified as an alternative venue at the time. The cabins we now use are larger than that used in 2004 with the need to provide integral ramps. Recommend no further action

REVISED POLLING ARRANGEMENTS SCHEME FOR APPROVAL AND IMPLEMENTATION ON 1 FEBRUARY 2011

NB. Where previously a portacabin has been specified as a polling place, it is now proposed to only specify the street in which the current location of the portacabin is sited. This is to facilitate the possible use of vacant shops in the close vicinity of the current portacabin location. This was proposed by the Electoral Arrangements Advisory Panel at their meeting of 21 December 2010.
