- AMENDED DRAWING - Tree Retention Plan - Drawing No.11891-T-06
- AMENDED DRAWING - Tree Survey Plan - Drawing No.11891-T-02
- AMENDED REPORT - Appendix A - Tree Schedule, dated 24th October 2023 - Drawing No.11891-T-06 There are a couple of minor amendments in the revised tree report, regarding the numbering of the trees and categorisation of the 4 trees identified for removal.

The two trees identified for removal to facilitate Bennetts Road central and S.278 works access on the previous survey (T25 and T26 on the original survey) have been grouped into group G7, they are still proposed for removal to facilitate the access.

Tree T73 was marked as 'tree is fallen' on the original survey is not recorded on the revised tree survey due to it having fallen.

Tree T55 identified as a category C in the original survey, and marked for removal to facilitate a cycle connection to Penny Park Lane is now recorded in the revised tree survey as Tree T54 Category U 'unsuitable for retention on arboricultural grounds' with a structural condition of 'limited live growth'. This tree is still marked for removal.

Therefore there are only three trees to be removed to facilitate the development and not four as stated within the report.
