

## Your comments were given to a landscape architect who has designed what the Play Area will look like

### You said

- “You would like play equipment that allows you to swing, climb and scramble”
- “More variety of equipment is needed at the play area”
- “The equipment is restricted for the use of younger children”

### But...

“You really like playing on the tyre swing”

### We will

Provide more equipment for older children to use

### We will do this by...

- Installing a new toddler and junior multi-play unit
- Providing an eagle carousel and a new waltz rotator for older children to use
- Ensuring that the tyre swing stays as a part of the refurbishment works

### When will the work start?

Work to refurbish the play area and install the new play equipment will take place during the Summer 2014.

When work commences please see the following web link for updates:
