MEMORANDUM

SUBJECT:
SOCIETY

On Wednesday 18th March 2015 West Midlands Police submitted paperwork requesting an expedited review of the Premises License for **Society**, Tower Street, Coventry. The request followed a serious disorder inside the premises on 15 March 2015, apparently linked to an urban event put on by the owners. This event had attracted a predominantly young male crowd of mixed ethnicities, many of whom would have travelled into Coventry to attend the event.

During the disorder, three young men received stab wounds caused using an unknown weapon(s) involving a number of offenders. Tragically, as a result of the attacks, 18 yr old Daniel Kirkwood lost his life, having received a fatal wound to his neck. He was out with friends celebrating an 18th birthday. The two other victims received potentially life altering injuries. One suffered stab wounds to the back, lung and spleen. The other – only 17 at the time of the incident - received stab injuries to the arm which appear to have severed ligaments/tendons. Further victims suffered facial injuries as well as lacerations, with one victim knocked to the floor before being stamped upon and kicked repeatedly, leaving him with a footwear impression clearly visible on his face.

As a result of the incident, a murder inquiry was launched. That inquiry remains on-going, which therefore limits the ability for the Licensing Sub-Committee (LSC) to hear all of the evidence relevant to that night. As at the time of this report, a number of males, all of whom are not resident of Coventry, have been charged with offences relating to the disorder.

From the information available to Licensing, we have been able to conclude the following;

- CCTV confirms there was no checking of ID at the point of entry
- Searching of all 'patrons' is listed as a key requirement in the event plan produced by the venue, including using a knife wand on all occasions. It appears at least one person was able to enter in

possession of a knife, therefore it is reasonable to conclude that the tactics employed to carry out the searches appear to have been inadequate

- Now 16 days on from the disorder, West Midlands Police have yet to be provided with details of which security staff and company/companies were retained to provide the level of security detailed in the event plan. This is despite formal requests, and the event plan confirming all staff would have been required to sign in and out with details including SIA badge numbers
- Despite being a HIGH RISK event, the event organiser Gurdeep Bassi – having initially indicated he would use 15 security personnel to support the event (in an event plan received by us on 5 March 2015) – subsequently reduced the level of security personnel by almost 50%. This was not reflected in any lessening of the perceived risk in the second event plan received by WMP Licensing on 13 March 2015, and no clear explanation was offered supporting this decision
- There is evidence that at least one underage person gained admittance to the event, which was listed as an 18+. There is a significant likelihood that a number of those who gained admittance were underage
- At the point at which West Midlands Police sought to hand back control of the premises to Gurdeep Bassi, an inspection of the basement area identified the remnants of a recent ‘cannabis factory’. The initial findings suggest it was used to produce at least one (and possibly many) ‘crops’ of significant size and value. At this time the photographic evidence is with our Drugs Expert Witness Team, who will be providing a more reliable assessment of what was discovered (Ref MHD1) (Exh) *attached*. My understanding is that some days after the serious disorder, another active ‘cannabis factory’ was discovered concealed within another licensed premise under the control of Gurdeep Bassi

Venue History

Mr Gurdeep Bassi has been the owner and DPS for **Society** since November 2010. During the period of his ownership, the venue has been branded as;

- Sky
- Ice
- Platinum

- Demand

Throughout this time Mr Bassi has always managed the venue, and in August 2014 became the premises license holder. Recently the management team within the venue changed to include Mr John Dawkins and Mr John Kelly who previously ran 'Rehab Warehouse' in Silver Street. Under the new management team the premises became **Society** on 4th November 2014, opening for its first event on 11th November 2014. It is the contention of West Midlands Police that the additional management staff in no way improved the ability of the venue to host safe events. Indeed, it is our contention that – given the history of mismanagement, disorder and substance misuse associated with 'Rehab Warehouse' between 2013 and 2014, the influence of Messrs Dawkins and Kelly would only have increase the risks associated with future events.

Over the last 20 months high risk events have been held at the venue, a number of which have ended with large scale disorders taking place, either inside/directly outside the venue, or in sufficiently close proximity to the venue and involving individuals who were customers at the venue prior to those disorders occurring.

In October 2013 Mr Bassi was subject of a formal discussion with West Midlands Police Licensing Officers, regarding an incident outside the club where a male was stabbed. On that occasion, the victim received such extreme injuries as to result in his intestinal tract becoming partly dislodged, requiring a police officer to push it back into his abdominal cavity and hold it there pending the arrival of paramedics. During the same incident, two other males also received stab injuries, and other victims were injured following being attacked by an assailant in possession of a baseball bat. The criminal investigation was hampered by the reluctance on the part of the victims to make any sort of complaint, or to provide any details to the investigating officers. However, what was established was that each of them had been in attendance at the venue, taking part in what was described as an 'Urban Music' event.

On 3 March 2014 the Duty Inspector for Coventry felt it necessary to deploy 19 staff to Tower Street at 0358hours. The log suggests that the Inspector was aware the venue was about to close imminently, and due to the history of the venue and the volume of people likely to flood out onto the street at 4am, he felt the need to have a substantial policing presence (OASIS Ref: 155 03/03/14).

On 30 March 2014, 25 officers were deployed to a large disorder which appears to have started inside the premises, but continued immediately outside the venue after a number of individuals had been ejected. A number of people sustained injuries, including facial and lacerations to parts of the body. The criminal investigation was hampered by the reluctance on the part of the victims to make any sort of complaint, or to provide any details to the investigating officers. Mr Bassi was subject of a formal discussion with West Midlands Police Licensing Officers regarding both incidents. He was made aware of continuing concerns regarding a particular high risk event known as 'Ambush', which appeared to be attracting individuals linked to local gangs in the city (OASIS Ref: 11 30/03/14).

On 9 April 2014, a significant number of police officers were deployed to a report of a large disorder outside the venue. Offenders dispersed as soon as officers arrived, but the occurrence of the disorder was confirmed by a paramedic who had been travelling along Tower Street at the time. One male stopped informed officers it had been a party held by sixth form students, strongly suggesting that a number of those in attendance would have been under the age of 18. Despite the significant police presence, no persons present wished to make any form of complaint (OASIS Ref: 167 09/04/14).

On several occasions the premises has hosted '14+' events. These events invariably bring young people into the city centre, who are by their very age vulnerable, but who could become significantly more vulnerable if able to consume alcohol. On occasions when West Midlands Police know of such events, we offer support both the venue and the wider city centre, in the form of guidance and resources to address issues of vulnerability. Unfortunately, Mr Bassi has a history of not being forthcoming with details regarding planned 'U14's' events, resulting in responsible authorities, including West Midlands Police having to chase him for the information.

The prevalence of knives linked to persons attending the venue has remained a genuine cause for concern. On several occasions West Midlands Police have deployed a knife arch to support the venue and send a message out within the city that knife crime is not acceptable. As well as the afore-mentioned incidents, there have been other occasions upon which knives have been seen or used;

- On 6 July 2014 Mr Bassi contacted West Midlands Police to ask for resources to the location, after a male had returned to the venue armed with a knife, having been ejected. The period between the time he was ejected and the time he returned was unclear, but during the initial call, Mr Bassi

was adamant he saw a knife. Where the male could have got a knife at almost 2am is unclear, unless he had been in possession of the knife when he was first admitted and this had not been picked up during the searches the venue claims it always undertakes (OASIS Ref: 347 06/07/14).

- On 27 September 2014 Mr Bassi contacted West Midlands Police to ask for resources to the location, after a male had appeared outside the venue armed with a knife. It is not clear if the male had been a customer immediately prior to the incident, and whether the knife had been on his possession throughout (OASIS Ref: 272 27/09/14).

Other disorders either occurring inside/immediately outside the venue, or occurring in close proximity to the venue and involving persons who had been customers at the venue prior to the disorder have included;

On 1 January 2015 a male was assaulted and knocked unconscious. Unfortunately the male did not wish to make a complaint (OASIS Ref: 350 01/01/15)

On 29 January 2015 - after an urban event at **Society** - there was a large disorder in the Burges whereby a male was stabbed. CCTV confirms that persons involved had been customers at **Society** immediately prior. During the disorder baseball bats were also used. One male was hospitalised as a result of being stabbed with an unidentified bladed weapon. A 6" knife was found close to the scene of the assault, which may have been the weapon used. Again, one has to question where an individual might obtain a knife at approximately 6am, having exited Society, and therefore it would be unreasonable to suggest that the male had the knife on him whilst inside the venue. No persons have been identified as having been responsible for this assault (OASIS Ref: 250 29/01/15).

Concerns regarding vulnerability have also been highlighted to the management on numerous occasions, invariably following reported offences involving customers allowed to become vulnerable as a result of their alcohol consumption, and who are then let out into public places. Their vulnerability has contributed significantly towards their subsequent victimisation or involvement in the commission of crime, which has included;

- Serious assaults (including wounding and GBH)

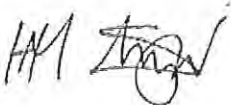

- Offences under the Theft Act 1968 (including Robbery, Theft from the Person and Theft)
- Offences under the Misuse of Drugs Act 1971

Victims have been as young as 17, and many have been under the age of 20 years.

During almost all of the period **Society** have been open (both in its current and previous incarnations), one or more of the Responsible Authorities has felt it necessary to request meetings with the owners / DPS to discuss continuing and growing concerns regarding the performance of the venue. West Midlands Police have remained concerned for a considerable period of time that the management do not appear to accept or act upon the advice being given regarding the management of the venue, despite advice being repeated on more than one occasion. The evidence of people becoming vulnerable whilst inside the location, coupled with the evidence surrounding the state in which many customers are being allowed to exit the premises in, all points to an ineffective management team supported by even more ineffective staff. West Midlands Police remain extremely concerned that the inability of all involved to effectively manage the premise continues to create an unacceptable level of risk to the safety and wellbeing of patrons, staff and emergency services responding to incidents of disorder. I would therefore ask the Committee to permanently revoke the premises license for **Society**.

Submitted for your consideration.

Many thanks.

This statement is in relation to an incident that I attended on 24th MARCH 2015. The location of this incident was SOCIETY NIGHT CLUB, TOWER STREET, Coventry. At the time I was attached to the community action and priorities team based at Coventry central police station. I was in plain clothes and in company with PS 2600 YARKER.

We had attended the location to carry out a scene walk through with officers investigating a serious incident that had occurred at the location.

When we arrived we entered the scene and checked rooms as we went through. We arrived at the smoking area and we discovered a pair of secure outward opening fire doors. We looked for access inside the premises but the only other way in was via a disused lift shaft.

I was asked to force the door so that access could be gained and the room checked.

I eventually managed to force entry but found that it had been braced by a solid steel bar.

Inside the room we found that it was the beer cellar. This was full of rubbish and that came up to my waist. There were also various wine fridges and other electrical items scattered around. We noticed that a number of these fridges were stacked against another set of doors. We removed these and inside we found a area that had been used to cultivate cannabis.

The room was around six meters by six meters and at one point been concealed by a stud wall.

Inside the room were plastic sheeting, ventilation and air filters, UV lamps, Chemicals, power packs, plant pots, timers and fans. We also found cannabis stalks in bin liners. The rooms smelt strongly of cannabis.

I took several photographs of the scene.

Due to the nature of its use the equipment was destroyed and the room secured.

I returned to Coventry central police station and contacted the local licencing team to update them as to what we found.

I then produced a photograph booklet of the images I took Ref (MHD/1) Exh No (

I am the owner of McDonalds, 26 Cross Cheeping, Coventry, West Midlands, CV1 1HF. This is a 24 hour restaurant that opens around the clock.

We are a very busy store and over night and at the weekend I employ more staff and security guards to prevent any problems and deal with demands.

If I am aware that there are major events within the City Center I also provide additional staff, and security. On occasions, for example when there is a Urban Night at one of the nightclubs I have increased my security staff up to four guards.

On the night of 19th March 2015, there was an Urban Night at Carters with Coventry City Center. I was not aware that this event was happening.

until around 16:00 hours. I found out via my security company who are a local group called - TEMK Events. I review the situation and decided not to call in any additional staff.

Fortunately the night passed without any major incidents, although the store was very busy.

Previously there has been incidents and issues following Urban Nights and this has impacted on the store.

My staff members will state that they feel intimidated and vulnerable at times. They are often dealing with people who are drunk and impatient and can be very verbally aggressive. Due to this I provide security staff and we have a 'staff safe' this is a panic button where by when it is activated the aggressor is warned that the Police are coming and to move away from the vicinity.

Following Urban Nights large crowd seem to congregate outside and inside the store. Sometimes the crowds can become volatile and my security staff will put measures in place to manage the situation.

A major frustration is lack of communication of where and when Urban Nights are taking place, given the size and nature of the crowd that attends these events.

When I am aware that an Urban Night is taking place within the City Center I feel that I have to re-view the opening of the store. This is because the safety and well being of my staff and regular customers is paramount.

I do fully support events within the City Center and encourage 24/7 economy and most events are well communicated and organised. If all events could be communicated appropriately then it would encourage more people to attend and benefit the City.

Staff Training will be provided on premises'; with all of SOCIETY'S specific policies relevant to the operation of the business and the standards we want to adhere too being taught. Staff training in preventing disorder will be provided to give them the knowledge and confidence to deal with difficult situations. All staff will be advised of licensing law in writing before they are allowed to serve alcohol.

Well trained staff will contribute to well run premises and a responsible approach to the sale of alcohol, provision of entertainment and late night refreshment. Staff will also be told of what signs to look for with people under the influence of drugs/drink.

A customer dispersal policy can minimize the potential for disorder from customers leaving the premises. A policy should clearly set out measures to avoid a mass exit at the end of the evening such as a gradual change in music style and increasing lighting levels. Sufficient staff both door and bar will be provided at the end of the evening to manage a controlled shut down of the premises and maintain good order as customers leave.

SECURITY – will provide 15 security persons for the event including 2 female. The Event will be held in only the upstairs room. They will sign in with their badge numbers, issued with their own radio and high visibility vest and introduced to all members of staff one by one. They will then check the whole venue, familiarize themselves with it and make sure the venue is prepped and ready to open doors. During opening hours the team will have 8 door men on the front door including a head doorman and a woman. Inside the venue doormen will be at each end of the bar patrolling those areas with an additional doorman by the fire exit to the rear of the building overseeing the dance floor. Below in the points well outline search policies for the event and events moving forward. The front door staff will also be backed by the DPS who will assist in the picking of the door where the policy will be strict and selective on who comes in and out.

PERSON TO ACTION: Door Supervisors under the supervision of the Head Door Person, Venue DPS, General Manager, Bar Manager and Bar Staff.

HAZARD IDENTIFIED: Overcrowding / Crowd control ingress and egress

PERSONS AT RISK: General Public

RISK LEVEL: Low

(High/Med/Low)

MEASURES TO CONTROL RISK:

- * Clickers to be used to monitor all entry and exit points

- * Advance tickets limited to 300
- * Advance tickets to be queued separately to pay on the door customers to include all physical tickets, E Tickets and collections with crowd barriers used to separate queues
- * All guest lists to be submitted to the Venue General Manager by 6pm on the day of the event and numbers deducted from official capacity
- * No additional guest admissions to be allowed after the designated cut off point.
- * All entries and exit figures to be recorded hourly by the head door person
- * In the event of events reaching capacity the Head Door Person will make regular announcements to any persons waiting outside the venue that the venue is full and no further admissions will take place unless it is deemed safe to operate a “one in one out policy”
- * In the event of a sold out event where there are large numbers of patrons still outside the venue it will be the responsibility of the head door person in conjunction with the Venue DPS and GM to radio through to CV one and request assistance in dispersing crowds.
- * Toilets to be checked every 30 minutes and noted by the door person in the booklet.

11. First aid box and carers to be provided for each event
