## Name of Cabinet Member:

Cabinet Member for Strategic Finance and Resources - Councillor J Mutton

## Director approving submission of the report:

Executive Director for Resources
Ward(s) affected:
City Wide
Title:
The 2017/18 Council Tax Base Report

## Is this a key decision?

Yes - this report deals with income in excess of $£ 1 \mathrm{~m}$

## Executive summary:

The main purpose of this report is to establish the 2017/18 Council tax base for tax setting purposes.

## Recommendations:

Cabinet is recommended to approve:

1. That the Council Tax collection rate for $2017 / 18$ be set at $98.3 \%$
2. That, in accordance with the Local Authorities (Calculation of Tax Base) Regulations 2012, the amounts calculated by the City Council for 2017/18 shall be:
a net tax base of $78,971.9$ for the whole of the City Council area made up as follows:

| Allesley Parish | 327.6 |
| :--- | ---: |
| Finham Parish | $1,491.4$ |
| Keresley Parish | 233.8 |
| All Other Coventry City Council Wards | $\mathbf{7 6 , 9 1 9 . 1}$ |
|  | $\mathbf{7 8 , 9 7 1 . 9}$ |

3. That the following grant payments should be made to parish councils to reflect the impact in 2017/18 of Council Tax reductions on their tax bases.

| Allesley Parish | $£ 1,474$ |
| :--- | ---: |
| Finham Parish | $£ 3,665$ |
| Keresley Parish | $£ 266$ |
|  | $£ 5,405$ |

## List of Appendices included:

Appendix A Tax Base Calculation for 2017/18 Tax Setting (Coventry)
Appendix B Tax Base Calculation for 2017/18 Tax Setting (Allesley)
Appendix C Tax Base Calculation for 2017/18 Tax Setting (Finham)
Appendix D Tax Base Calculation for 2017/18 Tax Setting (Keresley)
Appendix E Grant payments to parish councils
Other useful background papers:
None
Has it or will it be considered by scrutiny?
No
Has it, or will it be considered by any other council committee, advisory panel or other body?
No
Will this report go to Council?
No

## Report title:

## The 2017/18 Council Tax Base Report

## 1. Context (or background)

### 1.1 Council tax base

1.1.1 The Council tax base is the measure of the taxable capacity of an area, for the purpose of calculating an authority's Council Tax. It represents the estimated number of Band D equivalent chargeable dwellings for the year. It also takes into account the authority's estimated Council Tax collection rate.
1.1.2 This report makes the necessary calculations in accordance with the Local Authorities (Calculation of Council Tax Base) (England) Regulations 2012 to establish the Council tax base for the City Council and its parishes. These regulations apply to financial years beginning 1 April 2013 onwards, and include the impact of the change from awarding Council Tax benefit to the introduction of a Council Tax Support Scheme (also known as the Council Tax Reduction Scheme).
1.1.3 Under the Reduction Scheme, the Council Tax base is reduced according to the amount of reductions awarded under the scheme, as the authority will be foregoing the relevant Council Tax income and instead will receive grant income outside of the Council Tax arrangements. These reductions are reflected in the calculation of the Council tax base, in order to calculate the correct amount of band D Council Tax for the billing authority (Coventry City Council), the major precepting authorities (West Midlands Police and Crime Commissioner and the West Midlands Fire and Rescue Authority), and the local precepting authorities (Allesley Parish Council, Finham Parish Council and Keresley Parish Council).
1.1.4 It is estimated that the effect on the tax base of the Support Scheme will be to reduce it by $16.4 \%$. The financial impact of the reduction in tax base will be partially offset by an element of the overall funding settlement from Government.
1.1.5 The tax bases for the parishes of Allesley, Finham and Keresley will also be reduced by $16.4 \%$ as a result of the Council Tax Support Scheme. It is proposed that the Council transfers an element of the grant described above to offset the impact of the reduced tax base on tax income for the parish councils. Recommendation 3 proposes that Allesley, Finham and Keresley receive payments of $£ 1,474, £ 3,665$ and $£ 266$ respectively to offset the effect of the tax base reduction. These payments have been calculated to offset $90 \%$ of the effect of the tax base reduction, in keeping with the approach adopted nationally. The details of the calculations are provided in appendix E .
1.1.6 This report does not set the actual level of Council Tax in Coventry; that will be set by Council on the $21^{\text {st }}$ February 2017. The determination of the tax base is one part of the process and must occur before $31^{\text {st }}$ January each year.
1.1.7 The technical nature of this report reflects the fact that the tax base calculation is prescribed by statute. The tax base measures all properties in an area, relative to a band D property even though this is not representative of the typical domestic property in Coventry. In fact $87.2 \%$ of properties in Coventry fall into bands $A$ to $C$, which attract lower bills than Band D properties.

## 2. Options considered and recommended proposal

### 2.1 Calculation of the Council tax base

2.1.1 The regulations specify in detail the calculations required. The basic formula is $A x B$, where:

- $\quad$ ' A ' is the number of "Band D equivalent" properties estimated to be applicable for the forthcoming financial year. This is referred to as the 'gross tax base'. The calculation and exact definition is explained in section 2.1.3 below.
- $\quad$ 'B' is the City Council's estimate of the Council Tax collection rate for those Band D equivalent properties as explained in section 2.2 below.
2.1.2 The calculation of the number of Band $D$ equivalent properties is set out in full in appendix A. This provides a gross tax base figure (A) of $80,337.6$ for the City of Coventry.
2.1.3 The gross tax base is derived for each band by taking the valuation list as at the $30^{\text {th }}$ November in the current financial year, adjusted for the effect of exemptions, discounts and reliefs actually claimed on that day, as well as estimated changes throughout the year. The tax base is also adjusted for the estimated effect of reductions that have replaced the previous Council Tax benefits. The calculation of each band is then weighted to the equivalent of a Band D property and added together to give the gross tax base.
2.1.4 Calculation of the gross tax base takes into account an estimate of the change in tax base that is likely to occur during the forthcoming financial year. This includes the anticipated effect of retrospective amendments. The majority of these amendments relate to properties that are exempt from Council Tax (e.g. student accommodation), where the exemption is only made known to the Council at a later date.
2.1.5 For the purposes of calculating the $2017 / 18$ tax base, an adjustment of $-1.0 \%$ has been made, based on existing experience, to take into account the anticipated effect of these amendments. This adjustment is at the same level as that made in the determination of the 2016/17 tax-base.

### 2.2 The Calculation of the Collection Rate

2.2.1 The City Council also has to estimate the likely rate of collection of Council Tax (referred to as ' $\mathbf{B}$ ' in 2.1.1 above). This determines the amount of tax due which the Council believes it can collect after allowing for bankruptcies, absconders and other noncollectable sums. The collection rate is applied to the gross tax base to give the net tax base, used for the purpose of setting Council Tax.
2.2.2 Reductions or increases in the collection rate lower or raise the net tax base and hence the amount of Council Tax available to fund services. A $0.25 \%$ variation in the collection rate would reduce or increase the amount of Council Tax to meet the budget requirement by approximately $£ 280,000$.
2.2.3 Balancing recent arrears collection performance and the pattern of write offs, it is recommended that an assumed eventual collection rate of $98.3 \%$ is adopted for 2017/18. This maintains the same level used in setting the 2016/17 Council tax base. Analysis of collection rates across the age profile of debts suggests that an eventual collection rate of $98.3 \%$ remains realistic and prudent in the current economic climate. Collection
performance will be monitored throughout the forthcoming year and the rate reviewed as part of the determination of 2018/19 tax base.
2.2.4 Multiplying the gross tax base (A) of $80,337.6$ by the collection rate (B) of $98.3 \%$ gives a recommended net tax base of $78,971.9$ for the City Council.

### 2.3 Calculation of Tax Base for the Parish Councils

2.3.1 The City Council is also required to calculate a tax base for each part of its area on which parish precepts are to be levied. Accordingly, the net tax bases for Allesley (Appendix B), Finham (Appendix C) and Keresley (Appendix D) parishes have been calculated as 327.6, 1,491.4 and 233.8 respectively.
3. Results of consultation undertaken

None
4. Timetable for implementing this decision

The tax base assumed within this report relates to financial year 2017/18.
5. Comments from the Executive Director, Resources

### 5.1 Financial Implications

5.1.1 The contents of this report are driven by a statutory framework and as such we are governed by this framework in relation to the contents of the report. Our Council Tax collection performance is the key area that will dictate whether we achieve the eventual collection rate of $98.3 \%$ assumed within this report. This matter is subject to regular performance monitoring.
5.1.2 The net tax base directly influences the level of Council Tax levied and therefore the resources available to the City Council. This will be dealt with as part of the Tax setting and Budget Requirement Report that will be considered by Council on $21^{\text {st }}$ February 2017.

### 5.2 Legal Implications

5.2.1 As stated in section 1 above, the tax base calculations for a particular financial year must comply with the Local Authorities (Calculation of Council Tax Base) (England) Regulations 2012, and be determined by no later than 31 st January in the preceding financial year. These regulations have been made under the Local Government Finance Act 1992, as amended (LGFA 1992).
5.2.2 The Local Government Finance Act 2012 (LGFA 2012) included a number of amendments to the LGFA 1992 that affect the calculation of the Council tax base. These amendments require councils to operate a Council Tax Support Scheme (as a replacement of Council Tax benefit) and gave powers to determine further discounts and set premiums.
5.2.3 The Tax Base for the City Council will be used by the West Midlands Police and Crime Commissioner and the West Midlands Fire and Rescue Authority, when setting their 2017/18 precepts in February 2017. It will also be used to set the City Council's element of the Council Tax for 2017/18, at the full Council meeting on 21 ${ }^{\text {st }}$ February 2017.
6. Other implications
6.1 How will this contribute to achievement of the Council's key objectives / corporate priorities (corporate plan/scorecard) / organisational blueprint / Local Area Agreement (or Coventry Sustainable Community Strategy)?

This report is technical in nature and its implications do not have any direct bearing on these matters.

### 6.2 How is risk being managed?

Regular monitoring of performance will ensure that we can take appropriate management action in the area of Council Tax collection.
6.3 What is the impact on the organisation?

The report affects the potential Council Tax resources available to the City Council and, as such, impacts on the 2017/18 budget setting process.
6.4 Equalities / EIA

None.
6.5 Implications for (or impact on) the environment

No impact

### 6.6 Implications for partner organisations?

The Council tax base for the City Council will be used by the by the West Midlands Police and Crime Commissioner and the West Midlands Fire and Rescue Authority when setting their 2017/18 precept.
