

Care Quality Commission (CQC) Review
Local Health and Social Care System – Coventry
Improvement Plan 2018

Final Version - April 2018; Progress update September 2018

Background

On 4th December 2017, the Care Quality Commission commenced a local review of the Coventry health and social care system. The main review week took place between 22nd and 26th January 2018, with the Health and Wellbeing Board feedback summit taking place on 14th March 2018.

The Coventry Health and Well Being Board welcomes the opportunities provided by the review to improve the way Coventry supports people that come into contact with the health and care system. This Action Plan has been developed in response to the issues highlighted within the report following its publication of the Coventry on 15 March 2017 recognising that the improvement journey was underway before the review and will continue beyond it.

The issues highlighted within the report have been reviewed and themed under the following headings:-

1. Vision and strategy
2. Engagement and involvement
3. Performance, pace and drive
4. Flow and use of capacity
5. Market development
6. Workforce
7. Information sharing and system navigation

The development of this Action Plan has been led by Pete Fahy, Director of Adult Services, Coventry City Council with support from the following individuals identified in the HWBB summit on 14 March 2018:

- Coventry and Rugby Clinical Commissioning Group (CRCCG)
 - Jo Galloway, Director of Nursing
- Coventry City Council Council
 - Gail Quinton, Deputy Chief Executive
 - Ian Bowering, Head of Social Work Service (Prevention and Health)
 - Jon Reading, Head of Commissioning and Provision
- University Hospital Coventry and Warwickshire (UHCW)
 - Lisa Kelly, Chief Operating Officer
- Coventry and Warwickshire Partnership Trust (CWPT)
 - Tracey Wrench, Chief Nurse and Interim Chief Operating Officer

- Coventry University
 - Professor Guy Daly, Pro Vice Chancellor (Health and Life Sciences)

In addition to the above, Andrea Green – Accountable Officer (CRCCG) has input to the production of the action plan and is the Health and Well-Being Board lead for its production.

The Group has been supported in its development by Richard Humphries, Senior Associate from the Social Care Institute for Excellence.

This action plan has been developed to support focus and drive on areas of activity and improvement already in progress across the system, it is therefore very much interlinked with existing plans as opposed to creating a separate and standalone action plan. As required by the CQC review the action plan will be owned through Coventry's Health and Wellbeing Board with responsibility for delivery through the relevant identified body.

Overall progress and current position:

Prior to review of the Coventry system being announced, during the review period and beyond we have continued to work as a system to address the issues that are impacting on people receiving consistently good health and care services. The review has provided a welcome opportunity for an external view on the issues we are dealing with and how we are responding.

One particular measure we are proud of is our improvement in respect of Delayed Transfers of Care which has been achieved through taking a system approach as opposed to looking at the issue from a number of single agency perspectives. In the period between the announcement of the review and its commencement the position improved, the most recent data published for January 2018 shows continued improvement which is shown in Figure One (below).

Figure One: Delayed Transfer of Care to January 2017

Although improving further from this position remains a key system objective much of our effort is placed into improving the system to prevent admissions in the first place and, where they occur, avoiding readmissions. The improvement in access to reablement (Figure Two and based on provisional data for 2017/18 pending completion of the Short and Long Term Statutory Return (SALT)) demonstrates this improvement.

Figure Two: Access to Reablement

Despite the progress on Delayed Transfers of Care and Access to Reablement the Coventry system remains close to full capacity with A&E attendances, emergency hospital admissions and bed occupancy rates remaining high. This indicates that a focus on what happens when preparing for and achieving discharge is only part of the issue and is why many of the actions contained within this plan complement and add focus to the wider work taking place across the system to achieve our broader system aim of improving population health and reducing system demand across the board.

Specific examples of how we are progressing this include our Upscaling Prevention programme and our 'year of well-being' which will provide some of the strategic impetus required to make a long term and sustainable difference in Coventry. These strategic approaches will be complemented by addressing a number of performance management, flow, market and workforce issues that the review identified and are contained within this plan.

We would of course welcome further feedback from CQC and/or Department of Health regarding how our plan could be further strengthened in order to achieve our ambitions at a faster rate.

Theme 1 – Vision and strategy

Lead responsibility – Coventry and Warwickshire Place Forum

Outcomes we will achieve: Ensure a consistent vision and strategy across the Health and Social Care system with links to how it's delivered.

CQC Recommendations:

- Ensure there is effective joint strategic planning and delivery for the people of Coventry based on the current and predicted needs of the local older population, to include BAME and hard to reach groups, and which harnesses all the local assets available in the wider system.
- While acknowledging that there is a concordat between Coventry HWB and Warwickshire HWB, the system leaders in Coventry need to build on the concordat and become more engaged with the development of the STP's Better Care, Better Health, Better Value programme.

Theme 2 – Engagement and Involvement

Lead Responsibility – Engagement workstream of Better Care, Better Health, Better Value programme

Outcomes we will achieve: Clear mechanisms in place for engagement with professionals and people who either use or may use services

CQC Recommendations:

- Create and deliver a joint public engagement strategy which includes how the system will reach seldom heard groups.
- Improve the working relationships between the CCG and GP providers.
- Develop a shared view of risk across health and social care by identifying forums where staff groups can come together, build relationships and identify ways to establish a consistent approach to the process of risk assessment and positive risk taking.

							mitigating actions and subsequent solutions.

Theme 3 – Performance, pace and drive

Lead Responsibility – as described in actions

Outcomes we will achieve: Delivery of agreed change programmes in a timely way.

CQC Recommendations:

- Ensure system wide performance data is used to drive improvements, implementing solutions and setting targets in which all parts of the system have a shared responsibility, and providing opportunities for collaborative reflection and learning

Theme 4 – Flow and use of capacity

Lead Responsibility – Coventry Accident and Emergency Delivery Group

Outcomes we will achieve: Reducing unavoidable admissions to hospital. For those who need to be admitted to ensure that people only stay in hospital for as long as they need to and, when ready to leave, are discharged promptly with appropriate support.

CQC Recommendations:

- Reduce numbers of avoidable admissions from care homes by extending successful initiatives such as the React to Red scheme, introducing pharmacist led medication reviews and increasing coverage of GP input into care homes.
- Ensure discharge planning is started at the beginning of a person's journey through hospital and remains a key focus during their stay. 'Red and green bed days' to be implemented and embedded across all wards. Care home and home with care providers to be involved in discharge planning at an early stage of the person's stay in hospital.
- Improve the processes around medicines on discharge to reduce delays and improve the safety of those who have been discharged to care homes.
- Improve the ability to discharge patients from hospital at weekends by increasing senior clinical decision makers and ensuring the presence of the discharge teams at weekends.
- Increase the utilisation of trusted assessors in each D2A pathway to improve the speed of transfers from hospital by increasing provider's confidence. Include in any jointly developed protocol for assessments and the review process, a clear feedback mechanism for learning and improvement.

Theme 5 – Market development

Lead Responsibility – Adult Joint Commissioning Board

Outcomes we will achieve: Ensuring the right level of market capacity and optimising its utilisation.

CQC Recommendations:

- Roll out and evaluate a programme of social prescribing.
- Identify and supply the necessary support needed for care homes to accept weekend discharges for new residents – *see actions under flow and use of capacity.*

Theme 6 – Workforce

Lead Responsibility – Local Workforce Action Board

Outcomes we will achieve: A clear approach to ensuring how the local workforce will be developed to meet population needs for health and care

CQC Recommendations:

- Develop a strategic plan for the health and social care workforce in Coventry linked to the STP's wider Better Care, Better Health, Better Value programme that takes account of the national health and social care workforce strategy (once developed)

Theme 7 – Information sharing and system navigation

Lead Responsibility – Digital Transformation Board

Outcomes we will achieve: Improved accessibility of information for people accessing care and support and professionals

CQC Recommendations:

- Accelerate the delivery of the Digital Transformation Board to provide digital interoperability and shared care records across the system.
- Provide a single point of access health and social care navigation system for people and carers to easily find the support and advice they need.
