

Review of Complaint made against Cllr Glenn Williams

I have considered the complaint made against Cllr Williams by Cllr Mutton; the view of the independent person and the report of the monitoring officer and agree with the conclusions contained therein. Given the level and nature of the behaviour complained of I do not believe that this meets the threshold for this to be considered a breach of the code of conduct and therefore I do not believe it is in the public interest to peruse this further.

However, given the concerns raised by the independent person and the inability to agree an informal resolution, the monitoring officer may consider that the complaint should be heard by a hearing panel.
