

## REPRESENTATION

I would like to object to the Application for a New Premises Licence re. Supply of alcohol at War Memorial Park (Annual Family & Community Reggae Festival).

The grounds for my objection are Prevention of Public Nuisance.

The application does not specify what measures will be taken to ensure that neighbours are not inconvenienced by the music produced in the event.

However, I can attest that it is extremely difficult to play loud music in the park without it inconveniencing the neighbouring properties.

For example, during the Godiva festival, every room in my home is filled with noise, making it impossible to enjoy many of the activities one would regard integral to enjoying one's home, e.g. reading, listening to talk radio, watching a film, have a meal in silence, talking to friends or to other members of the household. This makes for a highly stressful environment.

The proposed event will inflict three more days of this, for nine hours each day and extending well into the evening, soon on the wake of the Godiva festival. Given the cumulative nature of the stress caused by intrusive noise, this would be exceedingly hard to bear.

I therefore object in the strongest possible terms to this event.

REQUEST TO WITHHOLD PERSONAL DETAILS. Due to the risk of attacks on social media, I would like to request that my personal details be withheld from public view.
