Cabinet  
Audit and Procurement Committee

16<sup>th</sup> December 2025  
2<sup>nd</sup> February 2025

**Name of Cabinet Member:**

Cabinet Member for Strategic Finance and Resources - Councillor R Brown

**Director Approving Submission of the report:**

Director of Finance and Resources (Section 151 Officer)

**Ward(s) affected:** All

**Title:**

**2025/26 Second Quarter Financial Monitoring Report (to September 2025)**

---

**Is this a key decision?**

No

---

**Executive Summary:**

The purpose of this report is to advise Cabinet of the forecast outturn position for revenue and capital expenditure and the Council's treasury management activity as at the end of September 2025. The net revenue forecast position after management action is for spend in 2025/26 of **£3.3m over budget**. Whilst not a wholly comparable position, at the same point in 2024/25, there was also a projected overspend of £10.2m.

The Council continues to face budget pressures within Adults Social Care, Property Services & Development, City Services and Regeneration & Economic Development. These financial pressures are being caused by a combination of continued service demand, complexity & market conditions in social care, legacy inflation impacts, and income shortfalls due largely to the economic climate.

The Council's capital spending is projected to be £184m and includes major schemes progressing across the city. The size of the programme and the nature of the projects within it continue to be fundamental to the Council's role within the city. Although prevailing inflation rates look to be stabilising, legacy inflationary pressures continue to affect capital projects. We will continue to monitor this position and ensure projects are delivered within available resources.

**Recommendations:**

The Cabinet is requested to:

- 1) Approve the Council's second quarter revenue monitoring position.
- 2) Approve the revised forecast capital outturn position for the year of £184m incorporating: £1.4m net increase in spending relating to approved/technical changes and £5m of net programme rescheduling of expenditure to future years.

Audit and Procurement Committee is requested to:

- 1) Consider the proposals in the report and forward any recommendations to Cabinet.

**List of Appendices included:**

Appendix 1 - Revenue Position: Detailed Service breakdown of forecast outturn position  
Appendix 2 - Capital Programme: Analysis of Budget/Technical Changes  
Appendix 3 - Capital Programme: Analysis of Programme Acceleration/(Rescheduling)  
Appendix 4 - Prudential Indicators

**Background papers:**

**Other useful documents**

None

**Has it been or will it be considered by Scrutiny?**

No

**Has it been or will it be considered by any other Council Committee, Advisory Panel or other body?**

Yes - Audit and Procurement Committee, 2<sup>nd</sup> February 2026

**Will this report go to Council?**

No

**Report title:**  
**2025/26 Second Quarter Financial Monitoring Report (to September 2025)**

**1. Context (or background)**

- 1.1 Cabinet approved the City Council's revenue budget of £296.7m on 25<sup>th</sup> February 2025 and a Capital Programme of £171.6m. This is the second quarterly monitoring report for 2025/26. The purpose is to advise Cabinet of the forecast outturn position for revenue and capital expenditure, recommending any action required, and to also report on the Council's treasury management activity.
- 1.2 The current 2025/26 revenue forecast is for net expenditure to be **£3.3m over budget** (after management action). The reported forecast at the same point in 2024/25 was an overspend of £10.2m which reflected pressures relating primarily to social care activity and price. Capital spend in 2025/26 is projected to be £184m.
- 1.3 Whilst it is not unusual to experience a forecast overspend at this point, it is essential that the Council maintains strict financial discipline to operate within approved budgets.

**2. Options considered and recommended proposal.**

- 2.1 This is a budget monitoring report and as such there are no options.

**Table1 Revenue Position** - The revenue budgets and forecast positions are shown below analysed by service area.

<i>Total Over / (Under) spend at Q1</i>	<b>Service Area</b>	<b>Revised Net Budget</b>	<b>Total Forecast Spend</b>	<b>Total Over/ (Under) Spend at Q2</b>	<i>Swing from Q1 to Q2</i>
<b>£m</b>		<b>£m</b>	<b>£m</b>	<b>£m</b>	<b>£m</b>
2.1	Adult Services and Housing	144.2	146.4	<b>2.2</b>	0.1
(0.3)	Childrens and Education	123.1	123.5	<b>0.4</b>	0.7
0.8	City Services	39.0	40.5	<b>1.5</b>	0.7
(4.1)	Contingency & Central Budgets	(43.8)	(48.3)	<b>(4.5)</b>	(0.4)
0.4	Digital Services	0.1	0.6	<b>0.5</b>	0.1
0.0	Finance and Resources	13.3	14.0	<b>0.7</b>	0.7

0.0	Policy and Communication	0.4	0.3	<b>(0.1)</b>	(0.1)
1.5	Property Services and Development	(10.7)	(8.9)	<b>1.9</b>	0.4
0.0	Public Health	(1.3)	(1.7)	<b>(0.4)</b>	(0.4)
1.0	Regeneration and Economy Development	10.3	11.6	<b>1.3</b>	0.3
1.6	<b>Total</b>	<b>296.7</b>	<b>300.0</b>	<b>3.3</b>	1.7

- 2.2 The overspend position has worsened by £1.7m since the first quarter report. An explanation of the major forecast variances and reason for this swing are provided below. Further details are provided in **Appendix 1** to the report.

## **Directorate**

### **Adult Services & Housing: £2.2m overspend**

This overspend is mainly due to the costs of purchasing packages of care for adults and older people of £4.1m, which is partially offset by increased client fee income of £0.7m. Growth in costs for packages of care reflects sustained and emerging pressures across several areas. Primary drivers are the higher costs of new packages of care, the complexity and associated costs of cases in Mental Health, growth in residential & nursing care, and pressure in Learning Disabilities with a greater number of cases requiring intensive 1:1 support to manage complex needs safely within community settings. The service continues to scrutinise all areas of authorisation to ensure value for money while maintaining safe and effective care for those with the most complex needs.

These pressures are being offset at a directorate level by an underspend in Housing and Homelessness of £0.9m which is mainly due to an increase in grant funding for 2025/26 although this has been partly eroded by a pressure against the target for delivering additional temporary accommodation provision due to delays in opening some projects.

### **Property Services and Development: £1.9m overspend**

The increase is primarily due to residual holding costs for the City Centre South project, especially void NNDR costs at a forecast of £1.3m. Demolition is progressing, and it's anticipated that the Valuation Office will remove the properties of the rating list acknowledging the lack of beneficial occupation, leading to cost reduction over the year. Other costs include the management of the deteriorating commercial property assets such as the market and void levels within the portfolio. Operationally the Commercial property team continues to actively manage its portfolio to mitigate this impact.

### **City Services: £1.5m overspend**

#### **Environmental Services & Environmental: £1.1m overspend**

The forecast reports both a decline in mortality rates and the purchase of memorialisation items alongside a shift to cremation services rather than burials impacting our income against budget to a value of circa £0.8m. Additional pressures in our Parks and Open spaces for works on mandatory tree surveys; reduced activities in parks that also impact on car park income and the Travellers Inclusion work concluding to stay with existing provision has meant some existing targets will not be met due to the commercial viability of new proposals.

#### **Waste Disposal: £0.9m overspend**

This relates to costs associated with non-recyclable waste being put into recycling bins, leading to contamination charges. We are engaging with our residents through social media campaigns to improve recycling behaviours. Other costs within Waste are associated with the costs of transport and management fees at the Civic Amenity

sites and the partial non-achievement of Food Waste Savings which is partly offset by additional Garden Waste income.

#### Highways 0.5m underspend

This relates to reduced income being forecast against both penalty charge notices and residents parking scheme income of £0.5m which is more than offset by energy price reductions of £1m.

#### **Regeneration and Economic Development (£1.3m overspend)**

Pressures continue in our Planning Services division where we see a reduction in planning activities resulting in reduced fee income, as well as underperformance in our cultural commercial activities.

### **Corporate**

Underspends supporting the overspend position are primarily within Contingency and Central Budgets:

#### Contingency and Central: £4.5m underspend

There is a £3.8m surplus forecast on Asset Management Revenue Account, relating to increased expected income from both Coventry & Solihull Waste Disposal Company (CWSDC) and Birmingham Airport dividend income, above that assumed in the base budget.

Other favourable variances (£3.1m), include contingencies held in lieu of inflation on contracts. This is being offset by an adverse variance of £2.4m, which is due to a forecast underachievement of 2025/26 savings targets relating to the One Coventry Programme and Senior Management savings targets.

### **2.3 Capital**

The quarter 2 2025/26 capital outturn forecast is £184m compared with the first quarterly outturn of £187.6m. Table 3 below updates the budget at quarter 2 to take account of £1.4m of new approved/technical changes and £5m of programme rescheduling into future years.

The resources available section of Table 3 explains how the Capital Programme will be funded in 2025/26. It shows 60.9% of the programme is funded by external grant monies, whilst 28.4% is funded from borrowing. The programme also includes funding from capital receipts of £18.4m.

**Table 3 – Movement in the Capital Budget**

<b>CAPITAL BUDGET 2025/26 MOVEMENT</b>	<b>Qtr 2 Reporting £m</b>
Revised Programme (Reported at Q2)	187.6
Approved / Technical Changes (see Appendix 2)	1.4
“Net” (Rescheduling) into future years (See Appendix 3)	(5.0)
<b>Revised Estimated Outturn 2025-26</b>	<b>184.0</b>

<b>RESOURCES AVAILABLE:</b>	<b>Qtr 2 Reporting £m</b>
Prudential Borrowing (Specific & Gap Funding)	52.2
Grants and Contributions	112.1
Capital Receipts	18.4
Revenue Contributions and Capital Reserve	1.3
<b>Total Resources Available</b>	<b>184.0</b>

The inflationary pressures affecting the Council's revenue budget are also present within capital schemes although the pattern with which this takes affect can be different due to the way in which expenditure is incurred. All existing and future schemes are required to be delivered within existing agreed contractual sums and will continue to be monitored and managed within the available resources.

## **2.4 Treasury Management**

### **External Context**

The first quarter of the year was dominated by the fallout of the US trade tariffs and their impact on financial markets. Equity markets declined sharply which was subsequently followed by bond markets as investors were increasingly concerned about US fiscal policy. The second quarter is still rife with uncertainty, equity markets made gains and a divergence in US and UK government bond yields started to occur, which had been moving relatively closely together. From late June, amid a UK backdrop of economic uncertainty, concerns around the government's fiscal position and speculation around the autumn Budget, yields on medium and longer-term gilts pushed higher, including the 30-year which hit its highest level for almost 30 years.

UK headline annual consumer price inflation (CPI) increased over the period, rising from 2.6% in March to 3.8% in August, still well above the Bank of England's 2% target. Core inflation also rose, from 3.4% to 3.6% over the same period, albeit the August reading was down 0.2% from 3.8% the previous month. Services inflation also fell from July to August, to 4.7% from 5.0%.

The UK economy expanded by 0.7% in the first quarter of the calendar year and by 0.3% in the second quarter. In the final version of the Q2 2025 GDP report, annual growth was revised upwards to 1.4% y/y. However, monthly figures showed zero growth in July, in line with expectations, indicating a sluggish start to Q3.

Having started the financial year at 4.5%, the Bank of England's Monetary Policy Committee (MPC) voted 7-2 to cut Bank Rate by 25bpts to 4.0% in September, with the 2 members preferring to cut the rate by 50bpts to 3.75%. As predicted at quarter 1 the committee continue with a dovish approach to reducing rates although another reduction is expected there is now uncertainty whether that will be in quarter 3 or early in quarter 4 with some thinking it may not reduce until April 2026.

### **Long Term (Capital) Borrowing**

The net long-term borrowing requirement for the 2025/26 Capital Programme is £34.5m, considering borrowing set out in Section 2.3 above (total £51.7m), less

amounts to be set aside to repay debt, including non PFI related Minimum Revenue Provision (£17.2). In the current interest rate climate, the Council has no immediate plans to take any further new long-term borrowing although this will continue to be kept under review.

The Public Works Loan Board (PWLB) remains the main source of loan finance for funding local authority capital investment. In August 2021 HM Treasury significantly revised guidance for the PWLB lending facility with more details and 12 examples of permitted and prohibited use of PWLB loans. Authorities that are purchasing or intending to purchase investment assets primarily for yield will not be able to access the PWLB except to refinance existing loans or externalise internal borrowing. Under the Treasury Management Strategy 2025/26 approved by Cabinet on 25 February 2025 it was agreed the Council will not purchase investment assets primarily for yield.

Interest rates for local authority borrowing from the Public Works Loans Board (PWLB) between 1st April and 30 September 2025 have varied within the following ranges:

PWLB Loan Duration (maturity loan)	Minimum 2025/26 to Q2	Maximum 2025/26 to Q2	As at the end of Q2
5 year	4.86	5.17	5.15%
20 year	6.02	6.50	6.34%
50 year	5.85	6.34	6.18%

The PWLB allows qualifying authorities, including the City Council, to borrow at 0.2% below the standard rates set out above. This “certainty rate” initiative provides a small reduction in the cost of future borrowing.

Regular monitoring continues to ensure identification of any opportunities to reschedule debt by early repayment of more expensive existing loans replaced with less expensive new loans. The premiums payable on early redemption usually outweigh any potential savings.

During quarter 2, the Council have not had a need to take out any new borrowing and have not made any further capital repayments since the repaying £10m of LOBO loans during the first quarter. Towards the end of quarter 3 it may be necessary to take-out some borrowing. Arlingclose advise to borrow short term as long term rates have been at their highest for a long time, this is being closely monitored to ensure the timely drawdown of any funds required.

### **Short Term (Temporary) Borrowing and Investments**

The Council’s Treasury Management Team acts daily to manage the City Council’s day-to-day cash-flow, by borrowing or investing for short periods. By holding short term investments, such as money in call accounts, authorities help ensure that they have an adequate source of liquid funds.

Returns provided by the Council’s short-term investments yielded an average interest rate of 4.5% in the second quarter. This rate of return reflects low risk investments for short to medium durations with UK banks, Money Market Funds, Certificates of

Deposits, other Local Authorities, Registered Providers, and companies in the form of corporate bonds.

Although the level of investments varies from day to day with movements in the Council's cash-flow, investments held by the City Council identified as a snapshot at the reporting stages were: -

	<b>As at 31st Mar 2025 £m</b>	<b>As at 30<sup>th</sup> Jun 2025 £m</b>	<b>As at 30<sup>th</sup> Sept 2025 £m</b>
Banks and Building Societies	0.0	0.0	0.0
Local Authorities	22.5	41.5	10.8
Money Market Funds	18.7	24.6	39.0
Corporate Bonds	0.0	0.0	0.0
HM Treasury	2.5	0.0	0.0
<b>Total</b>	<b>43.7</b>	<b>66.1</b>	<b>49.8</b>

### **External Investments**

In addition to the above in-house investments, a mix of Collective Investment Schemes or "pooled funds" is used, where investment is in the form of sterling fund units and not specific individual investments with financial institutions or organisations. The pooled funds are generally AAA rated; are highly liquid, as cash can be withdrawn within two to four days; and have a short average duration. These investments include Certificates of Deposit, Commercial Paper, Corporate Bonds, Floating Rate Notes, Call Account Deposits, Property and Equities. However, they are designed to be held for longer durations allowing any short-term fluctuations in return due to volatility to be smoothed out. To manage risk these investments are spread across several funds (CCLA, Schroders, Ninety-One Investec, Columbia Threadneedle and M&G Investments).

Returns provided by the Council's pooled funds yielded an average interest rate of 5.39% over the last 12 months. At 30th September 2025 the pooled funds had a capital value of £28.2m (£27.6m at 31 March 2025), against an original investment of £30m (a deficit of £1.8m). All seven pooled funds show a deficit value but returns remain strong. Although the world economy has shown volatility over the last 9 months, the value of the funds is recovering. The property market still hasn't bottomed out, but the CCLA fund is being actively managed to provide good returns. There remains an expectation that the full value for each pooled fund will be recovered over the medium term - the period over which this type of investment should always be managed. Current accounting rules allow any 'losses' to be held on the Council's balance sheet and not counted as a revenue loss. These investments will continue to be monitored closely.

### **Prudential Indicators and the Prudential Code**

Under the CIPFA Prudential Code for Capital Finance authorities are free to borrow, subject to them being able to afford the revenue costs. The framework requires that authorities set and monitor against Prudential Indicators relating to capital, treasury management and revenue issues. These indicators are designed to ensure that

borrowing for capital purposes is affordable, sustainable and prudent. The purpose of the indicators is to support decision making and financial management, rather than illustrate comparative performance.

The indicators, together with the relevant figures as at 30 September 2025 are included in **Appendix 4** to the report. This highlights that the City Council's activities are within the amounts set as Performance Indicators for 2025/26. Specific points to note on the ratios are:

- The Upper Limit on Variable Interest Rate Exposures (indicator 9) sets a maximum amount of net borrowing (borrowing less investments) that can be at variable interest rates. At 30 September 2025 the value is -£40.7m (minus) compared to £102.7m within the Treasury Management Strategy, reflecting the fact that the Council has more variable rate investments than variable rate borrowings at the current time.
- The Upper Limit on Fixed Interest Rate Exposures (indicator 9) sets a maximum amount of net borrowing (borrowing less investments) that can be at fixed interest rates. At 30 September 2025 the value is £227.0m compared to £513.6m within the Treasury Management Strategy, reflecting both the level of actual borrowing and that a significant proportion of the Council's investment balance is at a fixed interest rate.

## 2.5 Commercial Investment Strategy – Loans and Shares

The Council's Commercial Investment Strategy is designed to ensure there are strong risk management arrangements and that the level of commercial investments held in the form of shares, commercial property and loans to external organisations, are proportionate to the size of the Council. In doing this the Strategy includes specific limits for the total cumulative investment through loans and shares. The total combined limit for 2025/26 is £115m, against which there are £86.7m of existing commitments: -

	Limit	Actual 30 <sup>th</sup> September 2025	Committed and Planned 2025/26	Total	Headroom
	£m	£m	£m	£m	£m
Shares	55.0	52.1	0.0	52.1	2.9
Loans	60.0	34.4	0.2	34.6	25.4
	<b>115.0</b>	<b>86.5</b>	<b>0.2</b>	<b>86.7</b>	<b>28.3</b>

The committed or planned total of £0.2m is predominantly for the balance of loan facility to Coombe Abbey Park Ltd which may not necessarily be taken up, although the Council is committed to provide the loan funds if requested.

The increase in headroom since budget setting is mainly due to the change in accounting treatment relating to the £18m to UKBIC which was previously treated as a loan (and was included in the limit) but is now accounted for as a lease and no

longer shown within this table. We would expect the loans limit to be reduced to reflect this change in the next budget setting cycle.

### **3. Results of consultation undertaken**

3.1 None

### **4. Timetable for implementing this decision.**

4.1 There is no implementation timetable as this is a financial monitoring report.

### **5. Comments from the Director of Finance and Resources (Section 151 Officer) and the Director of Law and Governance**

#### **5.1 Financial implications**

##### **Revenue**

The net quarter 2 forecast is a **£3.3m revenue overspend**. Although not wholly comparable, this is a significant improvement of the position this time last year which was a £10.2m overspend (quarter 2, 2024/25) and is in part a reflection of the decisions made during budget setting to support areas with intractable ongoing issues.

Continuing difficulties in the external markets for adult's social care are well documented around issues including the cost of highly complex cases and higher than planned levels of inflationary increases in placement costs, which have persisted to apply pressure to the budgetary provision included within the Council's budget.

Although the Council had budgeted for significant levels of inflation based on current information, the 2025/26 pay offer accepted earlier in the year, is above the budgeted figure and will need to be managed out of contingency budgets.

##### **Management Action**

The difficult position seen in recent years has required the Council to balance its financial outturn position using reserves. This was avoided in 2024/25 and although such a solution would be the Council's backstop position for 2025/26, it is one that the Council should be anxious to avoid. The Council holds limited reserve balances and recognises that such an approach is not sustainable in the medium term. It is therefore imperative to identify and adopt approaches that help the Council to manage its short-term pressures, whilst at the same time supporting the outlook for 2026/27 and medium-term financial pressures.

The Council's Leadership Team will proactively work together to mitigate the underlying pressures that have been recognised within this forecast by:

- Robust challenge and review of forecasts
- Continuation of Recruitment controls
- Alternative funding opportunities from grants

The above gives sufficient assurance that the Director of Finance and Resources does not currently need to take any extra-ordinary action to respond to the financial position either in respect of 2025/26 or future years.

### **Capital**

The Council's Capital Programme includes a range of strategically important schemes across the city. This continues to be a large and mostly grant funded programme continuing the trend of recent years. The Programme includes major scheme expenditure on secondary schools' expansion, Very Light Rail, disabled facilities grant (DfG), construction of Woodlands School, City Centre South and delivery of the City Centre Cultural Gateway development.

### **Legal implications**

There are no legal implications arising at this stage.

The Council has a statutory obligation to maintain a balanced budget and the monitoring process enables Cabinet to remain aware of issues and understand the actions being taken to maintain a balanced budget.

## **6. Other implications**

### **6.1 How will this contribute to the One Coventry Plan**

<https://www.coventry.gov.uk/strategies-plans-policies/one-coventry-plan>

The Council monitors the quality and level of service provided to the citizens of Coventry and the key objectives of the One Coventry Plan. As far as possible it will try to deliver better value for money and maintain services in line with its corporate priorities balanced against the need to manage with fewer resources.

### **6.2 How is risk being managed?**

The need to deliver a stable and balanced financial position in the short and medium term is a key corporate risk for the local authority and is reflected in the corporate risk register. Good financial discipline through budgetary monitoring continues to be paramount in managing this risk and this report is a key part of the process.

### **6.3 What is the impact on the organisation?**

It remains important for the Council to ensure that strict budget management continues to the year-end. Any resources available at year-end will be managed to ensure the Council's financial resilience or used to fund future spending priorities.

### **6.4 Equalities / EIA**

No current policy changes have been proposed but the possibility remains that the Council may need to consider changes to existing services through the year. If this is the case, the Council's equality impact process will be used to evaluate the potential equalities impact of any proposed changes.

## **6.5 Implications for (or impact on) Climate Change and the environment**

No impact at this stage although climate change and the environmental impact of the Council's decisions are likely to feature more strongly in the future.

## **6.6 Implications for partner organisations?**

No impact.

## Appendix 1

### **Revenue Position: Detailed Directorate Breakdown of Forecasted Outturn Position**

Table 1 below shows budget variations analysed between those that are subject to a centralised forecast variance and those that are managed at service level (termed “Budget Holder Variance” for the purposes of this report). The Centralised budget areas relate to salary costs – the Council applies strict control over recruitment such that managers are not able to recruit to vacant posts without first going through rigorous processes. In this sense managers have to work within the existing establishment structure and salary budgets are not controlled at this local level. The Centralised salaries and Overheads under-spend of £8m shown below is principally the effect of unfilled vacancies, often offset by agency staff costs shown within the budget holder variance.

**Table 1**

Service Area	Revised Net Budget	Forecast Spend	Centralised Variance	Budget Holder Variance	Total Variance Over / (under)
	£m	£m	£m	£m	£m
<b>Adult Services and Housing</b>	144.2	146.4	(2.0)	4.2	<b>2.2</b>
<b>Childrens and Education</b>	123.1	123.5	(2.4)	2.8	<b>0.4</b>
<b>City Services</b>	39.0	40.5	(2.0)	3.5	<b>1.5</b>
<b>Digital Services</b>	0.1	0.6	(0.1)	0.6	<b>0.5</b>
<b>Finance and Resources</b>	13.3	14.0	(0.3)	1.0	<b>0.7</b>
<b>Legal and Governance Services</b>	11.5	11.6	(0.5)	0.5	<b>0.0</b>
<b>People and Organisation Development</b>	3.0	3.2	(0.0)	0.3	<b>0.3</b>
<b>Planning and Performance</b>	7.7	7.2	(0.3)	(0.2)	<b>(0.5)</b>
<b>Policy and Communication</b>	0.4	0.3	(0.1)	0.0	<b>(0.1)</b>
<b>Property Services and Development</b>	(10.7)	(8.9)	(0.4)	2.2	<b>1.9</b>
<b>Public Health</b>	(1.3)	(1.7)	(0.0)	(0.4)	<b>(0.4)</b>
<b>Regeneration and Economy Development</b>	10.3	11.6	0.1	1.2	<b>1.3</b>
<b>Contingency &amp; Central Budgets</b>	(43.8)	(48.3)	0.0	(4.5)	<b>(4.5)</b>
<b>Total</b>	296.7	300.0	(8.0)	11.3	<b>3.3</b>

**Table 2:**

Service Area	Reporting Area	Explanation	£m
Adult Social Care	Strategic Commissioning (Adults)	The underspend is due to New Homes for Old Private Finance Initiative additional client fee income above budget £0.7m and reduced transport costs £0.1m.	(0.8)
Adult Social Care	Internally Provided Services	There are salary underspends arising from vacancies of £0.4m off-set by overspends against overtime, agency, & casual pay of £0.7m. Contributing to the underspend is an over-achievement of social care fee income of £0.5m.	(0.2)

Adult Social Care	Partnerships and Social Care Operational	The overspend relates to additional agency costs of £0.3m due to vacancies which is only partly offset by underspends due to staff vacancies of £0.2m. Recruitment processes are in place and not delivering prevention activity increases spend on long-term services.	0.1
Adult Social Care	Community Purchasing Mental Health	<p>We continue to face sustained and emerging pressures across multiple areas of care provision. The main factors contributing to the Q2 overspend are largely consistent with those observed previously.</p> <p>1. higher cost of new packages: During this period new care packages commissioned have on average, been more expensive than those concluded, leading to increased expenditure.</p> <p>2. complexity and cost in mental health: There has been a marked rise in both the complexity of cases and the associated costs. These pressures are tied to the higher needs of individuals supported in the community, and complex long stay hospital or secure unit discharges, rather than an increase in volume.</p> <p>3. learning disabilities supported living and 1:1 hour: We've experienced strain in supported living arrangements for individuals with learning disabilities. An increased number of cases require intensive 1:1 support to manage complex needs safely within community settings, resulting in higher costs.</p> <p>4. growth in residential / nursing care: Numbers above anticipated predicted growth for this year. We remain committed to scrutinising all areas of authorisation to ensure value for money while maintaining the highest standards of care and safeguarding.</p>	4.1
Housing	Housing and Homelessness	The underspend is mainly due to a £1.6m increase in Homeless Prevention Grant from the Ministry of Housing, Communities and Local Government to reflect the increased demand on homeless services nationally that is reflected in Coventry. This has been partially offset by delays in projects opening costing £0.8m including Ribbon Court and the Single Homelessness Accommodation Programme (SHAP project) which are both being progressed by external housing providers and the £0.6m continuing increase in temporary Accommodation cost. Staffing and other cost underspends total £0.7m.	(0.9)
<b>TOTAL Adult Services &amp; Housing</b>			<b>2.2</b>
Children's Services	Corporate Parenting and Sufficiency	There is a £3.0m forecast overspend on homes for children in care. The overall number of children in residential care is lower than our financial planning assumptions, however a greater proportion are currently accommodated in more costly external spot placements which is	2.9

		offsetting the benefit of reduced activity. Alongside this, the level of external financial contributions towards care packages for children with disabilities and complex needs is forecast to be lower than budgeted.	
Children's Services	Help & Protection	Social work case holding teams are forecast to underspend by £1m due to reduced levels of agency staff and overall case numbers. Section 17 budgets are forecasting to underspend by £0.5m due to reduced expenditure on assessments and temporary accommodation. Family Hubs and Early Help are forecasting to underspend by £0.6m due to staffing vacancies and utilisation of grant funding where appropriate. These are being offset in part by a £0.5m overspend against the no recourse to public funds (NRPF) budget due to there being an increased number of families who require support. The remainder is a combination of smaller underspends across other parts of the service.	(2.0)
Children's Services	Children in Care, Children with Disabilities & Care Leavers	The Care Leavers budget is forecast to underspend by £0.3m, this in line with last year and is an area of budget which is being reviewed moving forwards. In addition, there are forecast staffing underspends of £0.1m in both the Children in Care and Edge of Care services.	(0.5)
Ringfenced Funding – Dedicated Schools Grant (DSG)	SEND	As is being seen nationally the number of children in Coventry with an Education, Health and Care Plan (EHCP) continues to increase. When setting the 2025/26 High Needs budget the Council was forecasting an in-year deficit (or overspend) of £2m. At Q2 budgetary control the forecast in-year deficit has increased to £2.4m. Expenditure against Special Schools, Other Local Authority Schools (OLA's), Independent Specialist Placements (ISP's) and Further Education is forecast to be £1.7m higher than budgeted. This is being offset in part by an underspend of £0.2m against Enhanced Resource Provisions (ERP's), due to the reprofiling of opening dates for new settings. There is also a forecast underspend of £0.7m across SEND Support Services, Personal Budgets, Education Other Than at School (EOTAS) and Speech & Language Therapy. The overall position is being supported by supplementary grant funding announced by the government to support with the cost of pay awards and national insurance contributions for	2.4

		centrally employed teachers which was unbudgeted.	
Ringfenced Funding – Dedicated Schools Grant (DSG)	Schools	There is a £0.6m forecast overspend against the Early Years block which is primarily due to clawback of funding received in financial year 2024/25 based on headcount data (the number of children accessing government funded childcare) as of January 2025. This is offset by a forecast £0.1m underspend against the Growth Fund and a forecast £0.1m underspend against the maintained school's maternity de-delegation budget.	0.4
Ringfenced Funding – Dedicated Schools Grant (DSG)	Financial Strategy	Technical adjustment to remove total Dedicated Schools Grant (DSG) variance from the General Fund position. The overspend will be funded from the DSG reserve.	(2.6)
Ringfenced Funding – Dedicated Schools Grant (DSG)		Variance below £100k	(0.2)
<b>TOTAL Childrens and Education</b>			<b>0.4</b>
Highways	Parking	This pressure is based on us not realising the predicted value of Penalty Charge Notice's, which has shown a financial underachievement, plus not realising the forecast number of residents' parking scheme applications. These figures have been partly offset by additional car park income	0.5
Highways	Traffic	This is primarily due to reduced energy costs on the Street Lighting PFI.	(1.0)
Transport Policy & Innovation	Transport Policy	Overspend mainly relates to overspend against energy budget and operation cost associated with operation of traffic signal and camera technology systems in operation across network.	0.2
Environmental Services	Street pride & Parks	Due to lower death rates (locally and nationally) and families choosing to cremate (rather than bury) along with fewer purchasing memorialisation items, income is reduced in Bereavement Services by c£589k. (This also includes the non-achievement of an historic MTFS target of £160k.) There are also pressures in Parks & Open Spaces: Mandatory Tree Surveys c£200k, reduced car park income	1.0

		c£169k, reduced income from activities c£162k and non-achievement of a savings target relating to Traveller Incursions of £150k which are being partly offset by Misc over/underspends.	
Environmental Services	Waste & Fleet Services	Pressures in this area include £720k relating to Waste Disposal. We have incurred charges for contamination within our recycling and are working with residents to understand what can be recycled to prevent this from re-occurring. There has also been an increase in the Civic Amenities site Management fees. There are also pressures in Domestic Refuse & Recycling: £185k relating to additional transport costs at the Waste Transfer Station; non-achievement of the savings re: Food Waste £362k; partly offset by additional garden waste income (£344k).	1.0
City Services		Variances below £100k	(0.2)
<b>TOTAL City Services</b>			<b>1.5</b>
Finance & Resources	Revenues and Benefits	In addition to the Q1 pressures related to an increase in the cost of card payment fees incurred when the Council receives payments, an increase in the cost of providing support to care leavers and an increase in our provision for bad debt, at Q2 uncontrollable increased costs of partially subsidised accommodation have caused further budget pressures within the housing benefits subsidy service.	1.0
Finance & Resources	Financial Mgt	Ongoing vacancies in the service area are under active recruitment but result in a forecasted Q2 underspend.	(0.1)
Finance & Resources		Variances below £100k	(0.2)
<b>TOTAL FINANCE &amp; Resources</b>			<b>0.7</b>
Digital and Customer Services	ICT & Digital	The ICT overspend relates to an ongoing pressure arising from under-recovery of schools and academies income from our traded services. Work continues to have plans to try to improve the position, but this remains an area of challenge	0.5
<b>TOTAL Digital Services</b>			<b>0.5</b>
Legal and Governance Services	Legal Services	Legal Services forecasted agency staff costs has reduced from £680k in 24-25 to £308k in 25-26 and is fully funded by vacancy savings. However, the Service has a vacancy savings target of £350k and this is driving the overall adverse forecast variance.	0.1

Legal and Governance Services	Coroner & Register Office	25-26 forecasted one off costs of the extraordinary coroner's enquiry.	0.3
Legal and Governance Services	Procurement	Prompt payment rebates have increased and are expected to outperform targets in 25-26. Vacancies in the area are being held whilst the service undergoes a structure review to maximise these opportunities.	(0.2)
Legal and Governance Services	Regulatory Services	Service areas have undergone significant restructures in recent months and vacancies are actively being recruited the underspend reflects the timing to fill roles	(0.2)
<b>TOTAL Legal and Governance Services</b>			<b>0.0</b>
People and Organisation Development	Employment Services	To implement the payroll restructure vacancies have been held in posts that were considered to be at risk. The service will be looking to recruit to the agreed new structure throughout the year which will likely see a reduction in this forecasted underspend.	(0.1)
People and Organisation Development	Employment Policy & Practice	The unfunded Council Job Evaluation team continues to drive the overspend in the People Directorate.	0.2
People and Organisation Development	Facilities & Property Services	Facilities Management have had increases in income & savings targets whilst also receiving a reduction in the maintenance budget therefore currently forecasting an overspend of circa £150K. Management action is taking place to attempt to reduce this further	0.1
People and Organisation Development		Variance below £100k	0.1
<b>TOTAL People and Organisation Development</b>			<b>0.3</b>
Planning & Performance	Customer and Business Services	Staffing underspends of £0.6m due to the wider service actively managing vacancies which align to corporate change initiatives while future staffing models are determined.	(0.7)
Planning & Performance	Libraries, Advice, Health & Information Services	Libraries budget overspend relates principally to under delivery of anticipated income across Public Libraries and School Library Service. The variation from Q1 forecast relates to an unexpected accelerated £70k ICT commitment this financial year because of worldwide support for Windows 10 ending. We expect to deliver related underspends on ICT for the next two financial years creating a longer-term balanced budget position.	0.1

		Income Generation and Staff Turnover Savings Targets will continue to be monitored in Quarters 3 and 4 with a view to reduce the overspend.	
<b>TOTAL Planning and Performance</b>			<b>(0.5)</b>
Policy & Communication		Variance below £100k	(0.1)
<b>TOTAL Policy and Communication</b>			<b>(0.1)</b>
Property Services and Development	Commercial Property and Development	Variance relates to holding costs being charged to the service for example Business Rates and utilities associated with City Centre South properties awaiting demolition (demolition is now underway) and costs and foregone income from vacant commercial properties, including ever increasing costs associated with deteriorating property assets such as Coventry Market and older industrial estates	1.8
Property Services and Development		Variance below £100k	0.1
<b>TOTAL Property Services and Development</b>			<b>1.9</b>
Public Health	Migration	This represents an underspend on Our Coventry Programme contract due to utilisation of other grant funding	(0.4)
<b>TOTAL Public Health</b>			<b>(0.4)</b>
Regeneration and Economy Development	Culture, Sports & Events	We are currently forecasting a £542,000 deficit arising from a shortfall in commercial income for 2025/26. While some smaller positive adjustments have helped mitigate the position at the end of Quarter 2, further action will be needed in Quarters 3 and 4 to reduce the projected deficit and improve overall performance.	0.6
Regeneration and Economic Development	Economic Development service (EDS)	EDS (Economic Development service) has generated more surplus by maximisation of grant income to the service and earnings from delivery of contract programmes to external partners.	(0.2)
Regeneration and Economic Development	Regen & Ecy Mgt Support	Most of the variance relates to a shortfall against the income target for sponsorship and commercial activity. £154k is forecasted to be achieved by the end of 25/26 against a target of £375k leaving a shortfall of £221k. Opportunities for new income are being realised through partnership working with external organisations though this can mean delays can occur beyond the control of the City Council, for example, with external capital investment planning or design	0.2

		and installation works. Other opportunities are in the pipeline to be fulfilled during the year	
Transport Policy & Innovation	Transport Policy	Overspend mainly relates to overspend against energy budget and operation cost associated with operation of traffic signal and camera technology systems in operation across network.	0.2
Development Management	Planning Services	The income target for planning application fees in 2025/26 reflects an increase from 2024/25, in line with government changes to planning fees. However, the level of development interest—and therefore application volumes—is influenced by wider macroeconomic factors beyond the Council's control. The current forecast is based on extrapolating actual income received to date. Overall, planning application activity in Coventry remains broadly consistent with regional and national trends. Despite these challenges, the service is committed to maximizing income and working proactively with applicants to support delivery and achieve the target. In addition to income pressures, the service is required to deliver a Local Plan, and the associated costs contribute to the £531k overspend.	0.5
<b>TOTAL Regeneration and Economy Development</b>			<b>1.3</b>
Contingency & Central Budgets	Contingency & Central Budgets	Favourable variances (£3.1m), include contingencies held in lieu of contract inflation announcements. This is being offset by an adverse variance (£2.4m) which is due to a forecast underachievement of 2025/26 savings targets relating to the One Coventry programme and Senior Management savings targets.	(0.7)
Contingency & Central Budgets	Treasury Management	This surplus forecast on Asset Management Revenue Account, relates to increased expected income from both Coventry & Solihull Waste Disposal Company (CWSDC) and Birmingham Airport dividend income, above that assumed in the base budget.	(3.8)
<b>TOTAL Contingency &amp; Central Budgets</b>			<b>(4.5)</b>
<b>Total Outturn Variances</b>			<b>3.3</b>

## Appendix 2

### Capital Programme Approved / Technical Changes

SCHEME	EXPLANATION	£m
Business Energy Advice Service	<p>The Department of Energy Security and Net Zero (DESNZ) and the Department for Levelling Up Housing and Communities (DLUHC) are providing capital grant to support businesses in the West Midlands Region in mitigating the impact of energy cost rises and support their transition to net zero.</p> <p>The Business Energy Advice Service (BEAS) grant programme piloting is being extended until 31' March 2026. This is a £11m nationally funded grant programme to be delivered in the West Midlands region, administered by Birmingham City Council, with a view to expanding nationally.</p> <p>A report taken to Cabinet 13th February 2024 approves the acceptance of a further maximum up to £2.5m of capital grant for Business Energy Advice Service, of which we have been awarded £1.3m for 2025-26.</p>	1.3
Miscellaneous	Schemes below £250k reporting threshold	0.1
<b>TOTAL APPROVED / TECHNICAL CHANGES</b>		<b>1.4</b>

## Appendix 3

### Capital Programme: Analysis of Programme Acceleration/(Rescheduling)

SCHEME	EXPLANATION	£m
Coventry Very Light Rail	The Investment Delivery Portfolio Committee (IPDC) at the Department for Transport have formally approved £12.24m for Stage Gate 3a. This capital grant funding is for the preparation to construct City Centre Demonstrator (CCD) and full implementation of City Centre Traffic Management Plan (CCTMP).	7.9
West Midlands Investment Zone	The forecasted spend for 2025/26 has been revised following detailed discussions with key suppliers regarding the anticipated scope of works and their programme, with some spend slipping into 2026/27. Project end date remains unaffected.	(2.3)
City Centre Regeneration - City Centre South	Now the scheme is in contract and demolition works have commenced, the developer has been able to more accurately profile spend. While we still expect construction works to start during 2025/26 these will be at an early stage, therefore some spend has slipped into 2026/27.	(5.2)
Friargate Masterplan	This reflects spend incurred on fit out costs for Two Friargate necessary for the occupation of floors that were previously built to shell and core standard only. This is funded from the £17m existing budget that was profiled in future years as part of budget setting.	4.2
Schools - Basic Need	The majority of the £1.8m rescheduling is due to the project at Howes Primary School not going ahead now which was estimated at £1.2m, we also had £1m in the programme as a contribution to the Condition Programme of £600k has been rescheduled into 26/27.	(1.8)
Woodlands School	Woodland's project was delayed from the original programme/cost plan due to complications related to the building listing status and planning consents. The agreed internal configuration and layout have required minor amendments which due to the above has required more approvals than previously anticipated. The impact of this has meant works have been rescheduled to ensure the council is compliant of planning and building regulations.	(3.5)
Residential Childrens Homes Strategy 2023-2026	"Children's with Disability Home 2 is currently in the feasibility stage. Despite CCC's efforts, there have been delays in acquiring land to build the home on. Conversations around land purchase are currently ongoing and it is programmed for the home to be completed and handed over by 2026/27.	(4.3)
<b>TOTAL RESCHEDULING</b>		<b>(5.0)</b>

## Appendix 4

### Prudential Indicators

Indicator	per Treasury Management Strategy 2025/26	As at 30 September 2025
<b>Ratio of Financing Costs to Net Revenue Stream (Indicator 1)</b> , This is an indicator of affordability and highlights the revenue implications of existing and proposed capital expenditure by identifying the proportion of the revenue budget required to meet borrowing costs.	14.21%	14.32%
<b>Gross Borrowing should not, except in the short term, exceed the total of the Capital Financing Requirement (CFR) at 31<sup>st</sup> March 2025 plus the estimates of any additional CFR in the next 3 years (Indicator 2)</b> , illustrating that, over the medium term, net borrowing (borrowing less investments) will only be for capital purposes. The CFR is defined as the Council's underlying need to borrow, after taking account of other resources available to fund the capital programme and is the amount of capital expenditure that has not yet been financed by capital receipts, capital grants or contributions from revenue.	Estimate / limit of £571.5m	£332.1m Gross borrowing within the limit.
<b>Authorised Limit for External Debt (Indicator 5)</b> , This statutory limit sets the maximum level of external borrowing on a gross basis (i.e. excluding investments) for the Council. Borrowing at this level could be afforded in the short term but is not sustainable. The Authorised limit has been set on the estimated debt with sufficient headroom over and above this to allow for unexpected cash movements.	£591.5m	£332.1m is less than the authorised limit.
<b>Operational Boundary for External Debt (Indicator 6)</b> , This indicator refers to the means by which the Council manages its external debt to ensure it remains within the statutory Authorised Limit. It differs from the authorised limit as it is based on the most likely scenario in terms of capital spend and financing during the year. It is not a limit, and actual borrowing could vary around this boundary for short times during the year.	£571.5m	£332.1m is less than the operational boundary.
<b>Upper Limit on Fixed Rate Interest Rate Exposures (Indicator 9)</b> , These indicators allow the Council to manage the extent to which it is exposed to changes in interest rates. The Upper Limit for variable rate exposure has been set to ensure that the Council is not exposed to interest rate rises which could impact negatively on the overall financial position.	£513.6m	£227.0m
<b>Upper Limit on Variable Rate Interest Rate Exposures (Indicator 9)</b> , as above highlighting interest rate exposure risk.	£102.7m	£40.7m
<b>Maturity Structure Limits (Indicator 10)</b> , This indicator highlights the existence of any large concentrations of fixed rate debt needing to be replaced at times of uncertainty over interest rates and is designed to protect against excessive exposures to		

<p>interest rate changes in any one period, thereby managing the effects of refinancing risks.</p> <p>The maturity of borrowing is determined by reference to the earliest date on which the lender can require payment.</p> <p>&lt; 12 months  12 months – 24 months  24 months – 5 years  5 years – 10 years  10 years +</p>	<p>0% to 50%  0% to 20%  0% to 30%  0% to 30%  40% to 100%</p>	<p>13%  0%  0%  22%  65%</p>
<p><b>Investments Longer than 364 Days (Indicator 11)</b>, This indicator sets an upper limit for the level of investment that may be fixed for a period greater than 364 days. This limit is set to contain exposure to credit and liquidity risk.</p>	<p>£30m</p>	<p>£0.0m</p>
