

Cabinet Member (Strategic Finance and Resources)
Scrutiny Co-ordination Committee

5 December 2012
23 January 2013

Name of Cabinet Member:

Cabinet Member (Strategic Finance & Resources) – Councillor Duggins

Director Approving Submission of the report:

Director of Customer & Workforce Services

Ward(s) affected:

None

Title:

6 month (April – September 2012) Cumulative Sickness Absence 2012/2013

Is this a key decision?

No

Executive Summary:

To enable Cabinet Member (Strategic Finance & Resources) to monitor:

- Levels of sickness absence for the 6 month period from April – September 2012.
- The actions being taken to manage absence and promote health at work across the City Council

Recommendations:

Cabinet Member is asked:

To receive this report providing sickness absence data for the 6 month period of April September 2012 and accept the actions taken to monitor and manage sickness.

Scrutiny Coordination Committee is asked:

To note the first 6 months absence figures and to support the actions taken to monitor and manage absence and promote health at work.

List of Appendices included:

Appendix 1 – Coventry City Council – Days Lost per FTE 2004 - 2012

Appendix 2 – Directorate Summary Out-turn (2011/2012 and 2012/2013)

Appendix 3 - Reasons for Absence – (April - September 2012)

Appendix 4 – Days Lost per FTE, by Directorate (April – September 2012)

Appendix 5 - Coventry City Council Percentage Breakdown of Absence (April – September 2012)

Appendix 6 - Coventry City Council Spread of Sickness Absence (By Length of Days) – (April – September 2012)

Appendix 7 and 8 - Summary of Occupational Health & Counselling Services Activities Undertaken – (April – September 2012)

Other useful background papers:

None.

Has it or will it be considered by Scrutiny?

Yes, Scrutiny Coordination Committee 23 January 2013.

Has it, or will it be considered by any other Council Committee, Advisory Panel or other body?

No

Will this report go to Council?

No.

Report title:

6 Month (April – September 2012) Cumulative Sickness Absence

1. Context (or background)

- 1.1 Annual and Quarterly Information is based on full time equivalent (FTE) average days lost per person against the FTE average days per person available for work. This is the method that was previously required by the Audit Commission for annual Best Value performance indicator reporting. The City Council continues to use this method to ensure consistency with previously published data.
- 1.2 This report gives the cumulative sickness absence figures for the Council and individual directorates.

2 Performance and Projections

2.1

FTE Average Days Lost	All Employees	All Employees (except teachers)	Teachers
2011/12 – Qtr 2	3.69	4.09	2.30
2012/13 – Qtr 2	4.05	4.46	2.63

Annual FTE Average Days Lost	All Employees	All Employees (except teachers)	Teachers
2012/13 Projected	9.31	10.00	6.80
2012/13 Target	8.50	9.13	6.30

2.2 Indicative Cost of Sickness Absence

The indicative cost of sickness absence is calculated using a range of 12 separate salary bands (or levels) to produce an average daily cost of sickness for each band. These banded daily costs are then mapped against the projected sickness outturn to produce a total cost of sickness.

The table below shows the indicative cost of sickness for 2012/13 using this method of calculation.

2012/13	All Employees	All Employees (except teachers)	Teachers
Annual Cost	£13.2m	£9.1m	£4.1m
Annual Target Cost	£12.8m	£9.1m	£3.7m
Difference	£0.4m	£0.0m	£0.4m

The Quarter 2 projected annual cost of sickness absence for all employees' stands at £0.3m above the target cost. This is broken down into all employees except teachers projecting £0.1m below target and teachers projecting £0.4m above target cost.

3 Reasons for Absence

3.1 Appendix 3 Illustrates that:

- The most incidents of sickness absence across the City Council in April – September 2012 is Stomach, Liver and Gastroenteritis accounting for 1584 occasions. The amount of *time* lost through Stomach, Liver and Gastroenteritis was 4,329.44 days.
- The amount of *time* lost through Stress, Depression, and Anxiety was 9,155.36 days, making it the highest cause of time lost. However, it is not possible to differentiate between personal stress and work related stress.
- The second and third most prevalent reasons for time lost due to sickness absence were Other Musculo-Skeletal Problems (8,386.94 days) and Stomach, Liver and Gastroenteritis (4,329.44 days).

3.2 A comparison of year on year figures across the authority reveals that

- Quarter 2 (ending September 2009) out turn was 4.53 days (average sick days lost per full time equivalent employee),
- Quarter 2 (ending September 2010) out turn was 4.47 days (average sick days lost per full time equivalent employee),
- Quarter 2 (ending September 2011) out turn was 3.69 days (average sick days lost per full time equivalent employee),
- Quarter 2 (ending September 2012) out turn was 4.05 days (average sick days lost per full time equivalent employee),

When comparing this Quarter 2 (2011/12) out turn with last years in the same period, it (2012/2013) reveals that:-

- There has been an increase of 7,815.81 working hours lost.
- A reduction of £22,556.59 in respect of cost of absence.
- A reduction in the number of occurrences by 336.
- An increase in the total days lost per FTE by 1025.73 days.
- Stress has increased by 895.74 days.
- Musculoskeletal has increased by 1,474.28 days.

- Infections, colds and flu have increased by 148.75 days.
- Chest, respiratory, chest infection had reduced by 258.77 days.

3.3 Frequent and Long Term Absence

3.3.1 Appendix 5 provides the breakdown between frequent and long-term absence levels during April – September 2012.

3.3.2 Appendix 6 provides a more detailed breakdown of the duration of absences.

3.4 Dismissals through Promoting Health at Work Corporate Procedure

During April – September 2012, there has been a total of 19 dismissals in accordance the Promoting Health at Work Corporate Procedure. 4 dismissals have been ill health retirement and 15 dismissals have been where the City Council cannot continue to sustain the level of sickness absence.

4. Options considered and recommended proposal

4.1 Activities during Quarter 2 from the HR Health & Wellbeing Team

4.1.1 The HR Health & Well Being Team aims to ensure a consistent approach to sickness absence management and is responsible for providing information on sickness absence to DMTs/Senior Managers on a monthly basis and supporting managers in the application of the Council's Promoting Health at Work procedure.

4.1.2 Directorate Management Teams review summary absence reports on a monthly basis to monitor progress and determine actions needed to address any hotspots.

4.1.3 The Health & Well Being Team have also implemented the following proactive strategies to support the authority to reduce levels of sickness absence in 2012/13:

- Robust approach is being taken to the management of sickness absence casework with the application of a revised model, resulting in no more than 4 meetings having to take place before a decision is made about an employees continued employment.
- A monthly system to alert Assistant Directors when employees hit a sickness absence trigger point and have not been seen as part of the Promoting Health at Work Procedure.
- Training is provided to managers to support dealing with both practical and procedural issues. An ongoing programme of training in carrying out return to work interviews and Promoting Health at Work meetings is taking place across the Council as a whole. During Quarter 2 over 50 managers/supervisors and team leaders undertook training
- Training has allowed managers the opportunity to refresh their knowledge and understanding of taking an absence call, conducting effective return to work

meetings and understanding the rationale for making reasonable adjustments in the work place to facilitate an employee's return to work.

- 4.1.4 A number of service areas hold regular 'sickness summits' on a bi-monthly, quarterly or as needed basis.

These serve as a useful mechanism to ensure absence levels remain a high priority and are well-managed for all parties, with the aim to reduce these levels for the Council and to enable services to be cost-effectively delivered to the public.

The purpose of 'sickness summits', are to provide an opportunity for Management with the relevant Head of Service / Assistant Director, to review sickness cases within a given area. This is to ensure they are being picked up in a timely manner and are being robustly, consistently, fairly and appropriately managed through the application of the Promoting Health at Work process.

The summits provide an opportunity for Managers to share good practice and experience in managing absence levels, as well as to gain further advice, support and updates on changes to procedure and support the Council can provide to its employees, from their Lead HR Representative.

One of the particular key benefits of sickness summits has been to identify hotspot areas, or key issues / reasons for absence within service areas. This enables the advice, support and resources to be tailored to ensure these issues are addressed and managed and that our employees are appropriately supported. This has proved to be very useful in making a positive impact in the working environments and on attendance levels

4.2 Be Healthy Be Well Initiative

The Be Healthy Be Well initiative is joint project between the Health & Well Being Team and Occupational Health & Counselling Support Team which was launched in January 2012. The primary aim of the initiative is to act as central source of information and encourage Council employees to get Fit and Healthy in 2012 and beyond.

Various activities and events have been taking place as part of the initiative in the second quarter

- Coventry Sports Foundation & Coventry Sports Trust provided free gym/activity passes to Council staff.
- Continued promotion of Free football sessions – provided by the Sky Blues outreach project
- Launch of the 12 week cut price fitness programme by the Sports Foundation & Sports Trust for Council staff as part of the Be Healthy Be Well initiative. The programme provided Council staff with the opportunity to attend

discounted classes like – Swimming, Indoor Football, Zumba, Badminton, Cycling, Boxercise, Pilates, Table Tennis, BoxFit, Squash & Spinning Classes

- Health Eating Event delivered by Cook & Eat Well – Council staff were provided with the opportunity to obtain information on healthy eating, health meal preparation and cooking demonstrations
- British Military Fitness (BMF) offered one week's free training
- Coventry University Sports Centre offered Coventry City Council employees a membership to their exclusive CU Active Fitness Suite. The early riser membership allowed staff to have a workout before work at half the normal cost.
- The English Table Tennis Association provided the Council with a mini table tennis table to use – this was located in the Contact Centre for staff to use in their own time
- Promoted the Back to Netball campaign – discounted sessions for staff
- Continuation with publication of the very popular & informative monthly Be Healthy Be Well newsletter
- Discounted Badminton & Zumba classes were extended for staff

4.3 Activities during Quarter 2 from the Occupational Health Team

The Occupational Health and Counselling team provide a vital role in supporting the management of sickness absence process. Some of the key issues the team led on during the second quarter of 2012/13 were:-

- **The Stress Audit** programme has been further developed and the questions improved, which should encourage the use of the Audit in managing stress in the workplace.
- **A new Carer Support Group**, for all those employees who have responsibility caring for someone, i.e., through disability, is now available at the Occupational Health and Counselling Unit.
- **The Retirement Course** has been promoted in support of the ER/VR Programme
- **Mental Wellbeing Policy and Guidelines** were agreed and training for managers has been rolled out to management teams.
- **The Emotional Resilience and Managing Change** training and support programme has continued to be promoted.

- **A Wellbeing Event** was carried out for Cardinal Newman School and was very positively evaluated. This contributes to maintaining the SLA.
- **The Cancer Buddy Scheme** has been consolidated - there are 8 Cancer Buddy volunteers who have been mentored and supported by one of the counsellors. However there have been no requests for a Buddy so far.
- **Medical and nursing advice** - over Quarter 2 a programme to increase doctors and occupational health advisors dialogue with managers before and after health assessments has continued, to improve the management of sickness absence.
- **Healthy Lifestyles health screening 'drop in' clinics** - monthly health screening clinics are being run on a 'drop in' basis to make it easier for employees to have blood pressure, cholesterol, blood sugar and urine tests, along with fitness assessments and health advice.
- **The Flex and Stretch programme** - which includes desk based exercise and advice has continued for highly sedentary service areas and is ongoing.
- **A five week physiotherapy student mentorship programme** has successfully concluded with a very positive evaluation from the student.

5. **Timetable for implementing this decision**

None.

6. **Comments from Director of Finance and Legal Services**

6.1 Financial implications

Sickness absence impacts on the ability of the Council to deliver its services with replacement cover required in many service areas at an additional cost to the Council.

6.2 Legal implications

There are no legal implications resulting from this report

7. **Other implications**

There are no other specific implications

7.1 **How will this contribute to achievement of the Council's key objectives / corporate priorities (corporate plan/scorecard) / organisational blueprint / LAA (or Coventry SCS)?**

Sickness absence is one of the Council's corporate plan targets and performance is reported to Cabinet Member (Strategic Finance & Resources) on a quarterly basis with the final quarter containing the outturn report.

7.2 How is risk being managed?

The Promoting Health at Work strategy will require further development to examine more intensively issues such as working conditions, accidents, work related ill health, and industrial injuries in addition to managing absence. This will involve liaison with colleagues in the area of safety management and occupational health, and will also include analysis of sickness data to identify the relationship between specific causes of absence and occupational groups.

7.3 What is the impact on the organisation?

Human Resources

The HR Health and Wellbeing team and the Occupational Health and Counselling Service, support absence management across the whole City Council. The teams support managers to deal with sickness promptly and consistently within all directorates.

Information and Communication Technology

Improvements will continue to be made to the reporting process through Resource link management information to improve accuracy and detail of information in relation to all absences.

Trade Union Consultation

Consultation with the trade unions is ongoing. The trade unions are kept up to date on the latest absence figures and are actively involved in casework regarding sickness absence management.

7.4 Equalities / EIA

The application of the sickness absence management processes are continually reviewed to ensure compliance with the Council's duty under Section 149 of the Equality Act 2010.

7.5 Implications for (or impact on) the environment

None.

7.6 Implications for partner organisations?

None.
